Sports, Religion and Disability Nick J. Watson, Andrew Parker, 2016-04-14 This ground-breaking book provides a fascinating insight into the relationship between sports (and leisure), religion and disability. In the shadow of the London 2012 Olympic and Paralympic Games, at which athletes that were both able-bodied and disabled, provided an extravaganza of sporting excellence and drama, this text is a timely and important synthesis of ideas that have emerged in two previously distinct areas of research: (i) 'disability sport' and (ii) the 'theology of disability'. Many of the elite athletes at this global sporting mega-event often explicitly displayed their religious beliefs, and in turn their importance in the context of sport, by observing different religious rituals, and or, utilising the multi-faith sports chaplaincy service. This raises a whole range of unanswered questions with regard to the intersections between sports, religion and disability, which to-date has been under-researched. Examples of subjects addressed in this text include: elite physical disability sport--Paralympics; intellectual disability sport--Special Olympics; reflections on the illness narrative of the cyclist Lance Armstrong through the lens of the theology of 'radical orthodoxy'; the application of biblical athletic metaphors in understanding modern conceptions of disability sport; the role of sport and spirituality in the rehabilitation of injured British Military personnel, and; the importance of sports and leisure in L'Arche communities. This book begins a critical conversation on these topics, and many others, for both researchers and practitioners. This book was based on two special issues of the Journal of Religion, Disability and Health.

Dual Markets Ernesto U. Savona, Mark A.R. Kleiman, Francesco Calderoni, 2017-11-14 This comprehensive volume analyzes dual markets for regulated substances and services, and aims to provide a framework for their effective regulation. A "dual market" refers to the existence of both a legal and an illegal market for a regulated product or service (for example, prescription drugs). These regulations exist in various countries for a mix of public health, historical, political and cultural reasons. Allowing the legal market to thrive, while trying to eliminate the illegal market, provides a unique challenge for governments and law enforcement. Broken down into nine main sections, the book studies comparative international policies for regulating these "dual markets" from a historical, legal, and cultural perspective. It includes an analysis of the markets for psychoactive substances that are illegal in most countries (such as marijuana, cocaine, opioids and amphetimines), psychoactive substances which are legal in most countries and where consumption is widespread (such as alcohol and

tobacco), and services that are generally regulated or illegal (such as sports betting, the sex trade, and gambling). For each of these nine types of markets, contributions focus on the relationship between regulation, the emerging illegal market, and the resulting overall access to these services. This work aims to provide a comprehensive framework from a historical, cultural, and comparative international perspective. It will be of interest to researchers in criminology and criminal justice, particularly with an interest in organized crime, as well as related fields such as sociology, public policy, international relations, and public health.

Cyprus in the Long Late Antiquity Panayiotis Panayides, Ine Jacobs, 2023-02-28 Cyprus was a thriving and densely populated late antique province. Contrary to what used to be thought, the Arab raids of the mid-seventh century did not abruptly bring the island's prosperity to an end. Recent research instead highlights long-lasting continuity in both urban and rural contexts. This volume brings together historians and archaeologists working on diverse aspects of Cyprus between the sixth and eighth centuries. They discuss topics as varied as rural prosperity, urban endurance, artisanal production, civic and private religion and maritime connectivity. The role of the imperial administration and of the Church is touched upon in several contributions. Other articles place Cyprus back into its wider Mediterranean context. Together, they produce a comprehensive impression of the quality of life on the island in the long late antiquity.

The Hyperlocal in Eighteenth- and Nineteenth-Century Literary Space Nicholas Birns, 2019-08-26 This book examines literary representations of hyperlocal spaces that subvert the idea of grounded and organic spatial identities. Figures such as the pond, the scientific particle, and Wedgwood creamware often go unnoticed, but they exemplify important shifts in culture and aesthetics in the eighteenth and nineteenth centuries. *The Hyperlocal in Eighteenth- and Nineteenth-Century Literary Space* argues that these objects, as well as locations such as alcoves in remote shires, city inns, and mountain retreats, were portrayed by writers in the late eighteenth and early-to-mid nineteenth centuries as gambits that challenged cultural hegemonies. It shows that the hyperlocal space or object, though particular, reaches beyond itself, affording an elasticity that can allow those things that seem beneath notice to reveal broader cultural significance.

Safety Science Research Jean-Christophe Le Coze, 2019-08-13 *Safety Science Research: Evolution, Challenges and New Directions* provides a unique perspective into the latest developments of safety science by putting together, for the first time, a new generation of authors with some of the pioneers of the field. Forty years ago, research traditions were developed, including, among others, high-reliability organisations, cognitive system engineering or safety regulations. In a fast-changing world, the new generation introduces, in this book, new disciplinary insights, addresses contemporary empirical issues, develops new concepts and models while remaining critical of safety research practical ambitions. Their ideas are then reflected and discussed by some of the pioneers of safety science. Features Allows the reader to discover how contemporary

safety issues are currently framed by a new generation of researchers, brought together for the first time Includes an introduction and guide to the development of safety science over the last four decades Features an extraordinary collection of expert contributors, including pioneers of safety research, reflecting the evolution of the discipline and offering insightful commentary on the current and future state of the field Serves as an invaluable reference and guide for safety professionals and students from any established disciplines such as sociology, engineering, psychology, political science or management as well as dedicated safety programmes Some figures in the eBook are in colour

Failings of the International Court of Justice Arthur Mark Weisburd,2016 The International Court of Justice is the principal forum for countries seeking to resolve legal disputes with one another. Failings of the International Court of Justice argues that ICJ decisions - although treated with great respect by international lawyers - are often wrong and do not merit the deference they receive. In this book, A. Mark Weisburd explains the legal basis for the Court's work, and explores the cases where legal errors are prevalent.

The Fight for Privacy: Protecting Dignity, Identity, and Love in the Digital Age Danielle Keats Citron,2022-09-13 The essential road map for understanding—and defending—your right to privacy in the twenty-first century. Privacy is disappearing. From our sex lives to our workout routines, the details of our lives once relegated to pen and paper have joined the slipstream of new technology. As a MacArthur fellow and distinguished professor of law at the University of Virginia, acclaimed civil rights advocate Danielle Citron has spent decades working with lawmakers and stakeholders across the globe to protect what she calls intimate privacy—encompassing our bodies, health, gender, and relationships. When intimate privacy becomes data, corporations know exactly when to flash that ad for a new drug or pregnancy test. Social and political forces know how to manipulate what you think and who you trust, leveraging sensitive secrets and deepfake videos to ruin or silence opponents. And as new technologies invite new violations, people have power over one another like never before, from revenge porn to blackmail, attaching life-altering risks to growing up, dating online, or falling in love. A masterful new look at privacy in the twenty-first century, *The Fight for Privacy* takes the focus off Silicon Valley moguls to investigate the price we pay as technology migrates deeper into every aspect of our lives: entering our bedrooms and our bathrooms and our midnight texts; our relationships with friends, family, lovers, and kids; and even our relationship with ourselves. Drawing on in-depth interviews with victims, activists, and advocates, Citron brings this headline issue home for readers by weaving together visceral stories about the countless ways that corporate and individual violators exploit privacy loopholes. Exploring why the law has struggled to keep up, she reveals how our current system leaves victims—particularly women, LGBTQ+ people, and marginalized groups—shamed and powerless while perpetrators profit, warping cultural norms around the world. Yet there is a solution to our toxic relationship with technology and privacy: fighting for intimate privacy as a civil right. Collectively, Citron argues, citizens, lawmakers, and corporations have the power to create a new reality where privacy is

valued and people are protected as they embrace what technology offers. Introducing readers to the trailblazing work of advocates today, Citron urges readers to join the fight. Your intimate life shouldn't be traded for profit or wielded against you for power: it belongs to you. With Citron as our guide, we can take back control of our data and build a better future for the next, ever more digital, generation.

The Collapse of Parenting Leonard Sax, 2014-10-01 In this New York Times bestseller, one of America's premier physicians offers a must-read account of the new challenges facing parents today and a program for how we can better prepare our children to navigate the obstacles they face In *The Collapse of Parenting*, internationally acclaimed author Leonard Sax argues that rising levels of obesity, depression, and anxiety among young people can be traced to parents abdicating their authority. The result is children who have no standard of right and wrong, who lack discipline, and who look to their peers and the Internet for direction. Sax shows how parents must reassert their authority - by limiting time with screens, by encouraging better habits at the dinner table, and by teaching humility and perspective - to renew their relationships with their children. Drawing on nearly thirty years of experience as a family physician and psychologist, along with hundreds of interviews with children, parents, and teachers, Sax offers a blueprint parents can use to help their children thrive in an increasingly complicated world.

University of Chicago Law Review: Symposium - Revelation Mechanisms and the Law University of Chicago Law Review, 2014-03-23 The first issue of 2014 features articles and essays from internationally recognized legal and economics scholars, including an extensive Symposium on Revelation Mechanisms and the Law. Topics include voting options and strategies to reveal preferences, corporate governance, regulatory intensity, tort calculations of risk, mandatory disclosure of choices, partitioning interests in land, and shopping for expert witnesses. In addition, Issue 1 includes an article, *Libertarian Paternalism, Path Dependence, and Temporary Law*, by Tom Ginsburg, Jonathan S. Masur & Richard H. McAdams. Applications include smoking bans and seat belt laws. Also included is a student Comment, *Too Late to Stipulate: Reconciling Rule 68 with Summary Judgments*, by Channing J. Turner; and a Book Review, *Common Good and Common Ground: The Inevitability of Fundamental Disagreement*, by Rebecca L. Brown, reviewing *Ordered Liberty: Rights, Responsibilities, and Virtues*. The issue serves, in effect, as a new and extensive book on cutting-edge issues of revelation mechanisms, strategies, prompts, nudges, and effects. The Symposium's contents are: * *Governing Communities by Auction*, by Abraham Bell & Gideon Parchomovsky * *Partition and Revelation*, by Yun-chien Chang & Lee Anne Fennell * *Savage Tables and Tort Law: An Alternative to the Precaution Model*, by Janet M. Currie & W. Bentley MacLeod * *Revelation and Suppression of Private Information in Settlement-Bargaining Models*, by Andrew F. Daughety & Jennifer F. Reinganum * *The Use and Limits of Self-Valuation Systems*, by Richard A. Epstein * *Expert Mining and Required Disclosure*, by Jonah B. Gelbach * *Renegotiation Design by Contract*, by Richard Holden & Anup Malani * *Audits as Signals*, by Maciej H. Kotowski, David A. Weisbach &

Richard J. Zeckhauser * Irreconcilable Differences: Judicial Resolution of Business Deadlock, by Claudia M. Landeo & Kathryn E. Spier * From Helmets to Savings and Inheritance Taxes: Regulatory Intensity, Information Revelation, and Internalities, by Saul Levmore * Quadratic Voting as Efficient Corporate Governance, by Eric A. Fuzzy Systems and Data Mining IV A.J. Tallón-Ballesteros, K. Li, 2018-11-06 Big Data Analytics is on the rise in the last years of the current decade. Data are overwhelming the computation capacity of high performance servers. Cloud, grid, edge and fog computing are a few examples of the current hype. Computational Intelligence offers two faces to deal with the development of models: on the one hand, the crisp approach, which considers for every variable an exact value and, on the other hand, the fuzzy focus, which copes with values between two boundaries. This book presents 114 papers from the 4th International Conference on Fuzzy Systems and Data Mining (FSDM 2018), held in Bangkok, Thailand, from 16 to 19 November 2018. All papers were carefully reviewed by program committee members, who took into consideration the breadth and depth of the research topics that fall within the scope of FSDM. The acceptance rate was 32.85%. Offering a state-of-the-art overview of fuzzy systems and data mining, the publication will be of interest to all those whose work involves data science.

Advanced and Refractory Ceramics for Energy Conservation and Efficiency Hua-Tay Lin, James Hemrick, 2016-07-18 This volume contains a collection of 19 papers from the 11th International Symposium on Ceramic Materials and Components for Energy and Environmental Applications (CMCEE-11), June 14-19, 2015 in Vancouver, BC, Canada. Papers were presented in the below five symposia from Track 2 on the topic of Ceramics for Energy Conservation and Efficiency: Advanced Ceramics and Composites for Gas Turbine Engines Advanced Refractory Ceramic Materials and Technologies Advanced Ceramic Coatings for Power Systems Energy Efficient Advanced Bearings and Wear Resistant Materials Advanced Nitrides and Related Materials for Energy Applications

Automating Crime Prevention, Surveillance, and Military Operations Aleš Završnik, Vasja Badalič, 2021-08-19 This interdisciplinary volume critically explores how the ever-increasing use of automated systems is changing policing, criminal justice systems, and military operations at the national and international level. The book examines the ways in which automated systems are beneficial to society, while addressing the risks they represent for human rights. This book starts with a historical overview of how different types of knowledge have transformed crime control and the security domain, comparing those epistemological shifts with the current shift caused by knowledge produced with high-tech information technology tools such as big data analytics, machine learning, and artificial intelligence. The first part explores the use of automated systems, such as predictive policing and platform policing, in law enforcement. The second part analyzes the use

of automated systems, such as algorithms used in sentencing and parole decisions, in courts of law. The third part examines the use and misuse of automated systems for surveillance and social control. The fourth part discusses the use of lethal (semi)autonomous weapons systems in armed conflicts. An essential read for researchers, politicians, and advocates interested in the use and potential misuse of automated systems in crime control, this diverse volume draws expertise from such fields as criminology, law, sociology, philosophy, and anthropology.

New Horizons for Early Modern European Scholarship Ann Blair, Nicholas Popper, 2021-08-10 This edited collection assembles a set of essays investigating the past, present, and future historiography of scholars who write about the cultural and intellectual history of early modern Europe. Contributors examine how scholars in recent decades have broken down traditional boundaries imposed on this period by exploring shifting conceptions of periodization, geography, genre, and evidence--

Climatological Data National Climatic Center, 1976 Collection of the monthly climatological reports of the United States by state or region with monthly and annual national summaries.

Consenting to International Law Samantha Besson, 2023-11-30 The obligations stemming from international law are still predominantly considered, despite important normative and descriptive critiques, as being 'based' on (State) consent. To that extent, international law differs from domestic law where consent to the law has long been considered irrelevant to law-making, whether as a criterion of validity or as a ground of legitimacy. In addition to a renewed historical and philosophical interest in (State) consent to international law, including from a democratic theory perspective, the issue has also recently regained in importance in practice. Various specialists of international law and the philosophy of international law have been invited to explore the different questions this raises in what is the first edited volume on consent to international law in English language. The collection addresses three groups of issues: the notions and roles of consent in contemporary international law; its objects and types; and its subjects and institutions.

Stochastic Analysis: A Series of Lectures Robert C. Dalang, Marco Dozzi, Franco Flandoli, Francesco Russo, 2015-07-28 This book presents in thirteen refereed survey articles an overview of modern activity in stochastic analysis, written by leading international experts. The topics addressed include stochastic fluid dynamics and regularization by noise of deterministic dynamical systems; stochastic partial differential equations driven by Gaussian or Lévy noise, including the relationship between parabolic equations and particle systems, and wave equations in a geometric framework; Malliavin calculus and applications to stochastic numerics; stochastic integration in Banach spaces; porous media-type equations; stochastic deformations of classical mechanics and Feynman integrals and stochastic differential equations with reflection. The articles are based on short courses given at the Centre Interfacultaire Bernoulli of the Ecole Polytechnique Fédérale de

Lausanne, Switzerland, from January to June 2012. They offer a valuable resource not only for specialists, but also for other researchers and Ph.D. students in the fields of stochastic analysis and mathematical physics. Contributors: S. Albeverio M. Landscape Urbanism and Green Infrastructure Thomas Panagopoulos, 2019-08-19 This volume examines the applicability of landscape urbanism theory in contemporary landscape architecture practice by bringing together ecology and architecture in the built environment. Using participatory planning of green infrastructure and application of nature-based solutions to address urban challenges, landscape urbanism seeks to reintroduce critical connections between natural and urban systems. In light of ongoing developments in landscape architecture, the goal is a paradigm shift towards a landscape that restores and rehabilitates urban ecosystems. Nine contributions examine a wide range of successful cases of designing livable and resilient cities in different geographical contexts, from the United States of America to Australia and Japan, and through several European cities in Italy, Portugal, Estonia, and Greece. While some chapters attempt to conceptualize the interconnections between cities and nature, others clearly have an empirical focus. Efforts such as the use of ornamental helophyte plants in bioretention ponds to reduce and treat stormwater runoff, the recovery of a poorly constructed urban waterway or participatory approaches for optimizing the location of green stormwater infrastructure and examining the environmental justice issue of equitable availability and accessibility to public open spaces make these innovations explicit. Thus, this volume contributes to the sustainable cities goal of the United Nations.

Graphene Farzad Ebrahimi, 2015-11-25 This book is a result of contributions of experts from the international scientific community working in different aspects of graphene science and applications and reports on the state-of-the-art research and development findings on graphene through original and innovative research studies. Through its seven chapters, the reader will have access to works related to the theory and characterization of various planar heterostructures and nanoplatforms based on graphene and also the Compton effect in graphene, while it introduces photoactive graphene from functionalization to applications and also the modeling and control of a smart single-layer graphene sheet. Besides, it presents reviews on the modeling, synthesis, and properties of graphene and graphene technology and its applications in electronic devices.

18 Volume 81 2014 Introduction

In the digital age, access to information has become easier than ever before. The ability to download 18 Volume 81 2014 has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download 18 Volume 81 2014 has opened up a world of possibilities. Downloading 18 Volume 81 2014 provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading 18 Volume 81 2014 has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download 18 Volume 81 2014. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to

their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading 18 Volume 81 2014. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading 18 Volume 81 2014, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download 18 Volume 81 2014 has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
