Now, the team that brought you the bestselling Language of Composition is here to help. *Conversations in American Literature: Language • Rhetoric • Culture* is a new kind of American Literature anthology—putting nonfiction on equal footing with the traditional fiction and poetry, and emphasizing the skills of rhetoric, close reading, argument, and synthesis. To spark critical thinking, the book includes TalkBack pairings and synthesis Conversations that let students explore how issues and texts from the past continue to impact the present. Whether you're teaching AP English Language, or gearing up for Common Core, *Conversations in American Literature* will help you revolutionize the way American literature is taught.

Sporting with the Gods Michael Oriard, 1991-02-22 *Sporting with the Gods* examines the rhetoric of game and play and sport in American culture from the time of the Puritans to the 1980s. Focusing on writers and public figures who dominated public discourse, Oriard shows how the trope of game and play in fiction and in religious, social, and economic writings can be used to graph changes in the religious and social climate from the Puritans through the Transcendentalists to the Social Darwinists and from the Beats and hippies to the New Age spiritualists of the present decade. He also uses the trope to graph the shifting attitudes toward work (and play) in the game of business, as the United States moved to industrial capitalism and then to a postindustrial society of consumerism and leisure. The result is a history of this country from its inception, through the lens of a single trope, resonating with implications at every strata of American culture. --from back cover.

The Cambridge History of American Literature: Volume 1, 1590-1820 Sacvan Bercovitch, Cyrus R. K. Patell, 1997-01-28

Volume I of *The Cambridge History of American Literature* was originally published in 1997, and covers the colonial and early national periods and discusses the work of a diverse assemblage of authors, from Renaissance explorers and Puritan theocrats to Revolutionary pamphleteers and poets and novelists of the new republic. Addressing those characteristics that render the texts distinctively American while placing the literature in an international perspective, the contributors offer a compelling new evaluation of both the literary importance of early American history and the historical value of early American literature.

Muse Americana Brett Zimmerman, Brett Zimmerman, Ph.d., 2012-04-01 An introduction to style and rhetoric (the art of persuasion) in American literature and oratory. The core of this book consists of catalogues of terms from stylistics, rhetoric, and Speech Communication (oratory), with examples illustrating the various devices taken almost exclusively from American sources--novels, plays, poetry, nonfiction, television programs. This book is essential reading for academics and nonacademics interested in U.S. culture, history, literary history, literature, and oratory--but it will be valued by anyone, scholarly or otherwise, who simply loves language and the amazing things it can be made to do in the hands of great writers and skilled persuaders. The catalogues, which often provide lively and informative mini-essays, cover the span of U.S. literary history from the early Puritans to Barack Obama, from the seventeenth century to the twenty-first, from high-brow sources (literary and oratorical masterpieces) to popular culture.

**Writing America** Priscilla Beth Wald, 1988

Youth and Age in American Literature Marco Portales, 1989 -Youth and Age- culls out from generally well-known texts what in effect is an unnoticed dialogue in American literature. Marco Portales' book highlights the languages, the styles, and the purposes and intentions of well-recognized writers who focused attention on old men narrators and characters from the Puritan period to the beginning of the twentieth century. The rhetoric that emerges here will engage the interests of students in American Studies, history, Gender Studies, literature, and gerontology.

*The Cambridge History of American Literature: Volume 6, Prose Writing, 1910-1950* Sacvan Bercovitch, 2002-11-28 Volume 6 in this series explores the emergence and flowering of modernism in the U.S. David Minter provides a cultural history of the American novel from World War I to the Great Depression, Rafia Zafar tells the story of the Harlem Renaissance and Werner Sollors examines canonical texts and original immigrant writing. These narratives cover the entire range of literary prose written in the first half of the twentieth century.

*Teaching American Literature at an East European University* Richard C. Raymond, 2006 This book responds to literary and composition theorists who have called for reinventing English studies, uniting the study of literature and the study of writing in liberatory rhetoric. The book describes the partnership between the EAS Department at Shkoder, Albania, and the University of Graz, the Austrian institution that has supported its Albanian partner for over a decade; the University of Graz

has provided a powerful model for rhetoricizing English studies, a concept explored in the book and which relates this microcosm to departments of English studies.

**Political Economy in American Literature** Paul Barnett Royster, 1984

Ideology and Classic American Literature Sacvan Bercovitch, Myra Jehlen, 1986 For more than a decade, Americanists have been concerned with the problem of ideology, and have undertaken a broad reassessment of American literature and culture. This volume brings together some of the best work in this area.

**The Rhetoric of Realism** Sandra Webster, 1994

*An Introduction to Style in American Literature & Oratory* Brett Zimmerman, 1997

**The Cambridge History of American Literature: Volume 8, Poetry and Criticism, 1940-1995** Sacvan Bercovitch, Cyrus R. K. Patell, 1994 Multi-volume history of American literature.

*Reading Rape* Sabine Sielke, 2002 *Reading Rape* examines how American culture talks about sexual violence and explains why, in the latter twentieth century, rape achieved such significance as a trope of power relations. Through attentive readings of a wide range of literary and cultural representations of sexual assault--from antebellum seduction narratives and realist representations of rape in nineteenth-century novels to *Deliverance*, *American Psycho*, and contemporary feminist accounts--Sabine Sielke traces the evolution of a specifically American rhetoric of rape. She considers the kinds of cultural work that this rhetoric has performed and finds that rape has been an insistent figure for a range of social, political, and economic issues. Sielke argues that the representation of rape has been a major force in the cultural construction of sexuality, gender, race, ethnicity, class, and indeed national identity. At the same time, her acute analyses of both canonical and lesser-known texts explore the complex anxieties that motivate such constructions and their function within the wider cultural imagination. Provoked in part by contemporary feminist criticism, *Reading Rape* also challenges feminist positions on sexual violence by interrogating them as part of the history in which rape has been a convenient and conventional albeit troubling trope for other concerns and conflicts. This book teaches us what we talk about when we talk about rape. And what we're talking about is often something else entirely: power, money, social change, difference, and identity.

*Essays on English and American Literature* Olivier Abiteboul, 2018-12-21 This volume brings together a group of essays on 27 English or American writers contributing to the history of English and American literature, and offers a concise survey of the question of literary understanding. It approaches this question in a specific and systematic way, adopting the framework of structuralist literary criticism. The book proposes a preliminary to the understanding of literature in general, a sort of "philosophy of literature", as the problems involved in critical reading of course reflect the powerful characteristics of literary language.

**Typology and Early American Literature** Sacvan Bercovitch, 1972

*The Cambridge History of American Literature: Volume 4, Nineteenth-Century Poetry 1800-1910* Sacvan Bercovitch, Cyrus R. K. Patell, 1994 This is the first complete narrative history of nineteenth-century American poetry. Barbara Packer explores the neoclassical and satiric forms mastered by the early Federalist poets; the creative reaches of once-celebrated, and still compelling, poets like Longfellow and Whittier; the distinctive lyric forms developed by Emerson and the Transcendentalists. Shira Wolosky provides a new perspective on the achievement of female poets of the period, as well as a close appreciation of African-American poets, including the collective folk authors of the Negro spirituals. She also illuminates the major works of the period, from Poe through Melville and Crane, to Whitman and Dickinson. The authors of this volume discuss this extraordinary literary achievement both in formal terms and in its sustained engagement with changing social and cultural conditions. In doing so they recover and elucidate American poetry of the nineteenth century for our twenty-first century pleasure, profit, and renewed study.

**The Cambridge History of American Literature: Volume 8, Poetry and Criticism, 1940-1995** Sacvan Bercovitch, 2008-03-28 IVolume 8, concerned with works of poetry and criticism written between 1940 and the present, brings together two different sets of materials and narrative forms: the aesthetic and the institutional. Discarding the traditional synoptic overview of major figures, von Hallberg, Graff, and Carton settle in favor of a history from the inside--a history of interstices and relations, equal to the task of considering the contexts of art, power, and criticism in which it is set.
