Christianity, Empire, and the Making of Religion in Late Antiquity Jeremy M. Schott, 2008-08-26 In *Christianity, Empire, and the Making of Religion in Late Antiquity*, Jeremy M. Schott examines the ways in which conflicts between Christian and pagan intellectuals over religious, ethnic, and cultural identity contributed to the transformation of Roman imperial rhetoric and ideology in the early fourth century C.E. During this turbulent period, which began with Diocletian's persecution of the Christians and ended with Constantine's assumption of sole rule and the consolidation of a new Christian empire, Christian apologists and anti-Christian polemicists launched a number of literary salvos in a battle for the minds and souls of the empire. Schott focuses on the works of the Platonist philosopher and anti-Christian polemicist Porphyry of Tyre and his Christian respondents: the Latin rhetorician Lactantius, Eusebius, bishop of Caesarea, and the emperor Constantine. Previous scholarship has tended to narrate the Christianization of the empire in terms of a new religion's penetration and conquest of classical culture and society. The present work, in contrast, seeks to suspend the static, essentializing conceptualizations of religious identity that lie behind many studies of social and political change in late antiquity in order to investigate the processes through which Christian and pagan identities were constructed. Drawing on the insights of postcolonial discourse analysis, Schott argues that the production of Christian identity and, in turn, the construction of a Christian imperial discourse were intimately and inseparably linked to the broader politics of Roman imperialism.

Christianity Encountering World Religions (Encountering Mission) Terry C. Muck, Frances S. Adeney, 2009-04-01 The current religious climate poses unique challenges to those engaged in mission. Thus the authors of this book propose a new,

yet very biblical, model for interacting with people of other faiths. They term this model giftive mission, as it is based on the metaphor of free gift. We bear the greatest gift possible--the gospel message. Adopting this perspective not only has the potential for greater missionary success but also enables us to more closely imitate God's gracious activity in the world. The core of the book explores eleven practices that characterize giftive mission. Each practice is illustrated through the story of a figure from mission history who embodied that practice. Further discussion shows how to incorporate these practices in specific mission settings.

Jesus in the World's Faiths Gregory A. Barker, 2005 What Jesus as his teachings mean to contemporary Buddhists, Hindus, Muslims, Jews, and Christians in the context of their traditions and in their personal faith experiences.

Religions of Japan in Practice George J. Tanabe Jr., 2020-06-30 This anthology reflects a range of Japanese religions in their complex, sometimes conflicting, diversity. In the tradition of the Princeton Readings in Religions series, the collection presents documents (legends and miracle tales, hagiographies, ritual prayers and ceremonies, sermons, reform treatises, doctrinal tracts, historical and ethnographic writings), most of which have been translated for the first time here, that serve to illuminate the mosaic of Japanese religions in practice. George Tanabe provides a lucid introduction to the patterned confusion of Japan's religious practices. He has ordered the anthology's forty-five readings under the categories of Ethical Practices, Ritual Practices, and Institutional Practices, moving beyond the traditional classifications of chronology, religious traditions (Shinto, Confucianism, Buddhism, etc.), and sects, and illuminating the actual orientation of people who engage in religious practices. Within the anthology's three broad categories, subdivisions address the topics of social values, clerical and lay precepts, gods, spirits, rituals of realization, faith, court and emperor, sectarian founders, wizards, and heroes, orthopraxis and orthodoxy, and special places. Dating from the eighth through the twentieth centuries, the documents are revealed to be open to various and evolving interpretations, their meanings dependent not only on how they are placed in context but also on how individual researchers read them. Each text is preceded by an introductory explanation of the text's essence, written by its translator. Instructors and students will find these explications useful starting points for their encounters with the varied worlds of practice within which the texts interact with readers and changing contexts. *Religions of Japan in Practice* is a compendium of relationships between great minds and ordinary people, abstruse theories and mundane acts, natural and supernatural powers, altruism and self-interest, disappointment and hope, quiescence and war. It is an indispensable sourcebook for scholars, students, and general readers seeking engagement with the fertile ordered disorder of religious practice in Japan.

Religion and Spirituality Across Cultures Chu Kim-Prieto, 2014-08-07 This book presents an integrated review and critical analysis of the recent research in the positive psychology of religion, with focus on the positive psychology of religion across different cultures and religions. The book provides a review of the literature on different contributions of religion and

spirituality to positive functioning and well-being and reviews religions across the world, including Christianity, Islam, Buddhism, Judaism, Sikhism, Native American religions, and Hinduism. It fills a unique place in the market's increasing interest and demand in the psychology of religion, as well as positive psychology. While the target audience is researchers, scholars, and students in psychology, cross-cultural studies, religious studies, and social sciences, it will be useful for anyone interested in better understanding the contributions of religion and culture in subjective well-being.

Curating Lived Islam in the Muslim World Iftikhar H. Malik,2021-06-17 Beginning with the medieval period, this book collates and reviews first-hand scholarship on Muslims in the Middle East and South Asia, as noted down by eminent British travellers, sleuths and observers of lived Islam. The book foregrounds the pre-colonial and pre-Orientalist phase and locates the multi-disciplinarity of Britain's relationship with Muslims over the last millennium to demonstrate a multi-layered interface. Fully sensitive to a gender balance, the book focuses on specially selected individuals and their transformative experiences while living and working among Muslims. Examining the writings of male and female authors including Adelard, Thomas Coryate, Mary Montagu and Fanny Parkes, the book analyses their understanding of Islam. Moreover, the author explores the works of a salient number of representative colonial British women to move away from the imperious wives stereotype and shed light on gender and Islam in Near East and South Asia by illustrating the status of women, tribal hierarchies, historic and architectural sites and regional politics. Going beyond familiar views about colonialism, travel writings and memsahibs without losing sight of the complex relations between Britain and Asian Muslims, this book will be of interest to academics working on British history, Imperial history, the study of religions, Shi'i Islam, Islamic studies, Gender and the Empire and South Asian Studies.

Native Americans, Christianity, and the Reshaping of the American Religious Landscape Joel W. Martin, Mark A. Nicholas, 2010-10-11 In this interdisciplinary collection of essays, Joel W. Martin and Mark A. Nicholas gather emerging and leading voices in the study of Native American religion to reconsider the complex and often misunderstood history of Native peoples' engagement with Christianity and with Euro-American missionaries. Surveying mission encounters from contact through the mid-nineteenth century, the volume alters and enriches our understanding of both American Christianity and indigenous religion. The essays here explore a variety of postcontact identities, including indigenous Christians, mission friendly non-Christians, and ex-Christians, thereby exploring the shifting world of Native-white cultural and religious exchange. Rather than questioning the authenticity of Native Christian experiences, these scholars reveal how indigenous peoples negotiated change with regard to missions, missionaries, and Christianity. This collection challenges the pervasive stereotype of Native Americans as culturally static and ill-equipped to navigate the roiling currents associated with colonialism and missionization. The contributors are Emma Anderson, Joanna Brooks, Steven W. Hackel, Tracy Neal Leavelle, Daniel Mandell, Joel W. Martin, Michael D. McNally, Mark A. Nicholas, Michelene Pesantubbee, David J. Silverman, Laura M. Stevens, Rachel Wheeler, Douglas L. Winiarski, and Hilary E. Wyss.

Buddhist Visions of the Good Life for All Sallie B. King, 2021-05-30 This book highlights what Buddhism has to offer for living well here and now—for individuals, society as a whole, all sentient beings and the planet itself. From the perspectives of a variety of Buddhist thinkers, the book evaluates what a good life is like, what is desirable for human society, and ways in which we should live in and with the natural world. By examining this-worldly Buddhist philosophy and movements in India, Sri Lanka, Bhutan, the Tibetan diaspora, Korea, Taiwan, Japan and the United States, the book assesses what Buddhists offer for the building of a good society. It explores the proposals and programs made by progressive and widely influential lay and monastic thinkers and activists, as well as the works of movement leaders such as Thich Nhat Hanh and Dr. B. R. Ambedkar, for the social, economic, political and environmental systems in their various countries. Demonstrating that Buddhism is not solely a path for the realization of nirvana but also a way of living well here and now, this book will be of interest to

researchers working on contemporary and modern Buddhism, Buddhism and society, Asian religion and Engaged Buddhism.

Japanese Rinzai Zen Buddhism Jørn Borup, 2008-02-28 Zen Buddhist ideas and practices in many ways are unique within the study of religion, and artists, poets and Buddhists practitioners worldwide have found inspiration from this tradition. Until recent years, representations of Zen Buddhism have focussed almost entirely on philosophical, historical or “spiritual” aspects. This book investigates the contemporary living reality of the largest Japanese Rinzai Zen Buddhist group, Myōshinji. Drawing on textual studies and ethnographic fieldwork, Jørn Borup analyses how its practitioners use and understand their religion, how they practice their religiosity and how different kinds of Zen Buddhists (monks, nuns, priest, lay people) interact and define themselves within the religious organization. Japanese Rinzai Zen Buddhism portrays a living Zen Buddhism being both uniquely interesting and interestingly typical for common Buddhist and Japanese religiosity.

Religion for Atheists Alain de Botton, 2012-01-26 SUNDAY TIMES TOP TEN BESTSELLER NUMBER ONE INTERNATIONAL BESTSELLER From one of our greatest voices in modern philosophy, author of *The Course of Love*, *The Consolations of Philosophy*, *The Art of Travel* and *The School of Life* 'A serious and optimistic set of practical ideas that could improve and alter the way we live' Jeanette Winterson, *The Times* 'A beautiful, inspiring book... offering a glimpse of a more enlightened path' *Sunday Telegraph* 'Smart, stimulating, sensitive. A timely and perceptive appreciation of how much wisdom is embodied in religious traditions and how we godless moderns might learn from it' *Financial Times* 'There isn't a page in this book that doesn't contain a striking idea or a stimulating parallel' *Mail on Sunday* Alain de Botton takes us one step further than Dawkins or Hitchens ventured - into a world of ideas beyond the God debate... All of us, whether religious, agnostic or atheist, are searching for meaning. And in this wise and life-affirming book, non-believer Alain de Botton both rejects the supernatural claims of the major religions and points out just how many good ideas they sometimes have about how we should live. And he suggests that non-believers can learn and steal from them. Picking and choosing from the thousands of years of advice assembled by the world's great religions, Alain de Botton presents a range of fascinating ideas and practical insights on art, community, love, friendship, work, life and death. He shows how they can be of use to us all, irrespective of whether we do or don't believe.
