The Proscription of Terrorist Organisations Taylor & Francis Group, 2020-12-18 Powers to outlaw or proscribe terrorist organisations have become cornerstones of global counter-terrorism regimes. In this comprehensive volume, an international group of leading scholars reflect on the array of proscription regimes found around the world, using a range of methodological, theoretical and disciplinary perspectives from Political Science, International Relations, Law, Sociology and Criminology. These perspectives consider how domestic political and legal institutions intersect with and transform the use of proscription in countering terrorism and beyond. The chapters advance a range of critical perspectives on proscription laws, processes and outcomes, drawing from a global range of cases including Australia, Canada, the EU, Spain, Sri Lanka, Turkey, the UK and the USA. Using single and comparative cases, the authors emphasise the impacts of proscription on freedoms of speech and association, dissent, political action and reconciliation. The chapters demonstrate the manifold consequences for diasporas and minorities, especially those communities linked to struggles overseas against oppressive regimes, and stress the significance of language and other symbolic practices in the justification and extension of proscription powers. The volume concludes with an in-depth interview on the blacklisting of terror groups with the former U.S. Director of National Intelligence, James Clapper. This book was originally published as a special issue of the journal *Terrorism and Political Violence*.

Google Apps: The Missing Manual Nancy Conner, 2008-05-27 Among its many amazing applications, Google now has web-based alternatives to many of the applications in Microsoft Office. This comprehensive and easy-to-follow new book enables you to explore Google's new office applications in detail. Once you do, you'll be in good company -- more than 100,000 small businesses and some corporations are already looking to take advantage of these free Google offerings. *Google Apps: The Missing Manual* teaches you how to use three relatively new applications from Google: Docs and Spreadsheets, which provide many of the same core tools that you find in Word and Excel; and Google Calendar and Gmail, the applications

Black Faces in White Places Randal D. Pinkett, Jeffrey A. Robinson, Philana Patterson, 2010-10-27 Discover how African-American professionals can combine their personal strengths with the wisdom of others to plant the seeds of a positive, lasting legacy in the workplace. Randal Pinkett was the first African-American winner on *The Apprentice*. When he won, he also became the only contestant to be asked to share his victory with a white woman. For generations, African-Americans have been told that they need to work twice as hard as everyone else to succeed. However, as millions of black Americans were reminded by Pinkett's experience, sometimes hard work is not enough. *Black Faces in White Places* is about the game, the competitive world in which we all live and work. The book offers 10 revolutionary strategies for playing, mastering, and changing the game for the current generation, while undertaking a wholesale redefinition of the rules for those who will follow. In this book, you will: Expand yourself beyond your comfort zone Recognize and demonstrate the four facets of excellence Build beneficial relationships and powerful networks Identify different mentors and learn from others' experiences Discover ways of working with others to facilitate collective action Based on the authors' considerable experiences in business, in the public eye, and in the minority, the book shows how African-American professionals can (and must) think and act both entrepreneurially and intrapreneurially. *Black Faces in White Places* not only explains shattering the old glass ceiling" and changing the concept of success, but also examines the four dimensions of the contemporary black experience: identity, society, meritocracy, and opportunity.

Superconnect Richard Koch, Greg Lockwood, 2010-06-03 Networks rule the world. Take any organization: a corner shop, a

new venture, a gang of drug traffickers, the United Nations, Google, the place you work. They are all networks, with their own rules and values and ways of communicating. Everybody belongs to networks and they make a huge difference to our lives - to our happiness and to our opportunities. SUPERCONNECT looks at how the successful and fortunate few behave - and shows that if you want to be one of them, you have to play by the network rules. Acquaintances, friends of friends, distant neighbours, random encounters - all can put us in touch with new, different worlds that bring big breaks or surprising sources of happiness. We are becoming more and more connected - via the web, mobile phone technology and global media. How does this affect us? And how can we make the most of these connections?

OverSuccess Jim Rubens, James M. Rubens, 2008 Why are one in three American adults pervasively dissatisfied with their lives? Why is major depression seven times more likely among those born after 1970 than their grandparents? Why are one in four of us addicted to at least one substance or behavior? Why is America drowning in record personal and public debt? Why did over 100,000 people humiliate themselves this year auditioning for Fox's American Idol? Why are 80 percent of women unhappy with their bodies? What is it about contemporary America that connects the swelling incidence of depression, behavioral addictions, eating disorders, debt, materialism, sleep deprivation, family breakdown, rudeness, fame fixation, ethical collapse, mistrust, and monstrous acts of personal violence? Drawing from emerging science in several fields and insights about our transformed social lives, Rubens explains how genes, commercial culture, and global hyper-competition have locked tens of millions of Americans into an unwinnable success benchmarks race and unleashed an epidemic of status defeat. OverSuccess shows how and why the resulting social and psychological pathologies are different for baby boomers, men, and women. Offering hope for our future, Rubens outlines 20 ways that individuals, businesses, and voluntary organizations can satisfy the American drive for recognition and personal achievement without the toxic burdens of OverSuccess. These cures range from holding the door for strangers and somatic cell gene therapy, to responsible displays of wealth and building village-scale social and business organizations.

Google and the Myth of Universal Knowledge Ian Wilson, Jean Noel Jeanneney, Teresa Lavender Fagan, 2011-08-22 The recent announcement that Google would digitize the holdings of several major libraries sent shock waves through the book industry and academe. Google presented this digital repository as a first step towards a long - dreamed - of universal library, but skeptics were quick to raise a number of concerns about the potential for copyright infrin...

The Survival Imperative William E. Burrows, 2007-04-01 Using Space to Save Earth Veteran science journalist William E Burrows offers a bold new mission for the U.S. space program: to protect the Earth from the ever-growing number of perils that threaten our way of life - and even our very survival. We are living through one of the most dangerous times in human history. Nuclear, chemical, and biological weapons technology are proliferating, and missile technology is falling into more and more hands. Extreme natural disasters like hurricanes, floods, fires, and earthquakes, are becoming increasingly costly -

not only in dollars, but in lives – as population expands. Environmental crises threaten to provoke massive famines and widespread social collapse. Asteroids the size of battleships streak within striking distance of the earth every year. One strategy offers the best hope of protecting us from all of these dangers – a revitalized national space program that coordinates efforts in global defense, in environmental protection, in communications, and in military security. The Survival Imperative offers an impassioned argument for this bold initiative. To demonstrate the urgency of his cause, Burrows presents a vivid scenario: an impact by a moderately large asteroid that triggers a series of nuclear exchanges, environmental devastation, and the slow disintegration of civilization. And he examines the existing space program from the heady days of the Moon landing through the political compromises that have characterized the history of NASA in the 35 years following our retreat from the Moon. Most of all, Burrows warns that the primary obstacle to achieving a true planetary defense program is not financial or scientific, but social—an unwillingness to acknowledge the urgency of the crisis, and to take the political risks needed to address it. The question, says Burrows, is not whether we can do it, but whether we will act before it's too late. Waiting for Your Cat to Bark? Bryan Eisenberg, Jeffrey Eisenberg, 2007-09-09 Evolving from the premise that customers have always behaved more like cats than Pavlov's dogs, *Waiting for Your Cat to Bark?* examines how emerging media have undermined the effectiveness of prevailing mass marketing models. At the same time, emerging media have created an unprecedented opportunity for businesses to redefine how they communicate with customers by leveraging the power of increasingly interconnected media channels. Bryan and Jeffrey Eisenberg don't simply explain this shift in paradigm; *Waiting for Your Cat to Bark?* introduces Persuasion Architecture™ as the synthetic model that provides business with a proven context for rethinking customers and retooling marketers in a rewired market. Readers will learn: Why many marketers are unprepared for today's increasingly fragmented, in-control, always-on audience that makes pin-point relevance mandatory How interactivity has changed the nature of marketing by extending its reach into the world of sales, design, merchandizing, and customer relations How Persuasion Architecture™ allows businesses to create powerful, multi-channel persuasive systems that anticipate customer needs How Persuasion Architecture™ allows businesses to measure and optimize the return on investment for every discreet piece of that persuasive system There's some big thinking going on here—thinking you will need if you want to take your work to the next level. 'Typical, not average' is just one of the ideas inside that will change the way you think about marketing. ?Seth Godin, Author, *All Marketers Are Liars* Are your clients coming to you armed with more product information than you or your sales team know? You need to read *Waiting for Your Cat to Bark?* to learn how people are buying in the post-Internet age so you can learn how to sell to them. ?Tom Hopkins, Master Sales Trainer and Author, *How to Master the Art of Selling* These guys really 'get it.' In a world of know-it-all marketing hypesters,

these guys realize that it takes work to persuade people who aren't listening. They've connected a lot of the pieces that we all already know-plus a lot that we don't. It's a rare approach that recognizes that the customer is in charge and must be encouraged and engaged on his/her own terms, not the sellers. *Waiting for Your Cat to Bark?* takes apart the persuasion process, breaks down the steps and gives practical ways to tailor your approaches to your varying real customers in the real world. This book is at a high level that marketers better hope their competitors will be too lazy to implement. ?George Silverman, Author, *The Secrets of Word of Mouth Marketing: How to Trigger Exponential Sales Through Runaway Word of Mouth* We often hear that the current marketing model is broken-meaning the changes in customers, media, distribution, and even the flatness of the world make current practices no longer relevant. Yet few have offered a solution. This book recognizes the new reality in which we operate and provides a path for moving forward. The authors do an outstanding job of using metaphors to help make Persuasion Architecture clear and real-life examples to make it come alive. Finally, someone has offered direction for how to market in this new era where the customer is in control. ?David J. Reibstein, William Stewart Woodside Professor, Wharton Business School of the University of Pennsylvania and former Executive Director, Marketing Science Institute If you want to learn persistence, get a cat. If you want to learn marketing, get this book. It's purrfect. ?Jeffrey Gitomer, Author, *The Little Red Book of Selling*

When the World Calls Stanley Meisler,2012-02-07 *When the World Calls* is the first complete and balanced look at the Peace Corps's first fifty years. Revelatory and candid, journalist Stanley Meisler's engaging narrative exposes Washington infighting, presidential influence, and the Volunteers' unique struggles abroad. He deftly unpacks the complicated history with sharp analysis and memorable anecdotes, taking readers on a global trek starting with the historic first contingent of Volunteers to Ghana on August 30, 1961. In the years since, in spite of setbacks, the ethos of the Peace Corps has endured, largely due to the perseverance of the 200,000 Volunteers themselves, whose shared commitment to effect positive global change has been a constant in one of our most complex—and valued—institutions.

Kasey to the Rescue Ellen Rogers,2010-11-02 This is a story of how miracles DO happen. How courage and a never-give-up spirit can emerge victorious. How an engaging little monkey helped change a family's life. Ellen Rogers considered herself

something of a tragedy snob. The single mother of five believed she could weather any storm, that she could keep her family from harm with fortitude and grace. But nothing could have prepared her for the June 2005 car accident that left her son, Ned--then 22 years old--fighting for his life. Ellen refused to give in to despair. We'll get through this, she told herself. We have to. But love and determination can only go so far, and the road home was fraught with obstacles. Ellen and Ned took comfort in family and friends. And they prayed for a miracle. Miracles happen to those who believe, the saying goes, but who would have believed that one family's miracle would weigh in at five pounds sopping wet? Then Helping Hands: Monkey Helpers for the Disabled provided Ned with an affectionate and intelligent service animal with a steadfast devotion to hierarchy, a longing for spa days, and a craving for Gummi Bears. In other words, a diva. Life with Kasey was yet another challenge for this large and lively family, but they persevered as families do, and in time this wise and sensitive animal did more than help Ned cope with his disabilities--she turned the simple tasks of life into a life worth living. Kasey's astonishing intelligence and compassion brought hope and laughter back to a family facing its greatest challenge, and helped them see the world in a new way.
