Handbook of Pragmatic Language Disorders Louise Cummings, 2021-09-22 This reference work is the first to examine pragmatic language disorders of clients in complex and underserved populations. In chapters written by a range of experts, the unique pragmatic language skills of clients are examined, allowing for a broad overview. The text gives focus to client groups with complex cognitive and psychiatric problems and children and adults that have been underserved by clinical language services because of maltreatment and social exclusion. Pragmatic disorders are examined in children with sensory loss, children who have been exposed to HIV and substance abuse, and adults with Huntington's disease and other complex neurodegenerative pathologies. This Handbook is an essential reference for researchers and clinicians in speech-language pathology, linguistics, psychology, and education.

Land, Power and Prestige David T. Yates, 2007-08-01 A major phase of economic expansion occurred in southern England during the second and early first millennium BC, accompanied by a fundamental shift in regional power and wealth towards the eastern lowlands. This book offers a synthesis of available data on Bronze Age lowland field systems in England, including a gazetteer of sites. The research demonstrates the importance of large-scale animal husbandry in the mixed farming regimes as evidenced in the design of the field systems which incorporate droveways, stock proof fencing, watering holes, cow pens, sheep races and gateways for stockhandling. It is argued that the field systems represented a form of conspicuous production, an intensification of agrarian endeavour or a statement of intent, to be understood in relation to the maintenance, display and promotion of hierarchical social systems involved in exchange with their counterparts across the English Channel.

Broken Bodies, Places and Objects Anna Sörman,Astrid A. Noterman,Markus Fjellström,2023-11-29 Broken Bodies, Places and Objects demonstrates the breadth of fragmentation and fragment use in prehistory and history and provides an up-to-date insight into current archaeological thinking around the topic. A seal broken and shared by two trade parties, dog jaws accompanying the dead in Mesolithic burials, fragments of ancient warships commodified as souvenirs, parts of an ancient dynastic throne split up between different colonial collections... Pieces of the past are everywhere around us. Fragments have a special potential precisely because of their incomplete format – as a new matter that can reference its original whole but can also live on with new, unrelated meanings. Deliberate breakage of bodies, places and objects for the use of fragments has been attested from all time periods in the past. It has now been over 20 years since John Chapman's major publication introducing fragmentation studies, and the topic is more present than ever in archaeology. This volume offers the first European-wide review of the concept of fragmentation, collecting case studies from the Neolithic to Modernity and extending the ideas of fragmentation theory in new directions. The book is written for scholars and students in

archaeology, but it is also relevant for neighbouring fields with an interest in material culture, such as anthropology, history, cultural heritage studies, museology, art and architecture.

Origins, Development and Abandonment of an Iron Age Village Andy Chapman,Peter Ellis,2015-12-31 Excavations of a large Iron Age farming settlement in Northamptonshire spread across five sites, four studied here (The Lodge, Long Dole, Crick Hotel and Nortoft Lane, Kilsby) with Covert Farm, Crick studied in Volume I (9781784912086).

Rehabilitation of Prisoners Great Britain. Parliament. House of Commons. Home Affairs Committee,2005 The Committee's report examines the rehabilitation of offenders, looking in particular at the effectiveness of prisons in reducing re-offending through rehabilitation, given the problems of overcrowded conditions. Issues discussed include: recent government initiatives; the provision and adequacy of education, vocational training and paid work programmes; offending behaviour and cognitive skills programmes; mental healthcare provision and drug treatment services; and rehabilitation issues related to certain groups of prisoners, such as remand and short-term prisoners, women, young offenders, minority ethnic and religious groups. The Committee argues that the best way of reducing re-offending is to ensure that prisoners on their release have the ability to get into work and a home to go to, and it explores ways of delivering an effective rehabilitation strategy which reintegrates offenders into society by providing opportunities and assistance which address the differing needs of prisoners and their backgrounds.

Excavations at Downlands, Walmer, Kent Crispin Jarman,2010 Evidence for prehistoric and Romano-British settlement was recently discovered on the southern outskirts of Walmer in Kent. The prehistoric occupation commenced in the late Bronze Age and continued into the early part of the middle Iron Age, the main phase of occupation being from c 600-350 BC. Roman activity began very soon after the conquest and continued until at least the third century when a large aisled building, possibly a barn associated with a villa, was built on part of the site. This publication gives an account of the

archaeology with full reports on both the prehistoric and Roman pottery, the small finds and palaeoenvironmental evidence. The concluding chapter brings together discoveries and recent research elsewhere in Kent, in order to set this site at Downlands, in the far south-east corner of England, in its wider context.

Supporting Children with Communication Problems Myra Kersner, Jannet A. Wright, 2013-11-12 First Published in 1998.

Supporting Children with Communication Problems: sharing the workload is, therefore, for practising teachers and therapists who have begun to work together and wish to know more about the process, as well as for those professionals who may be considering embarking on such work but need to consider the 'pros and cons' of working in this way. The book is also for student teachers and speech and language therapy students.

Government's alcohol strategy Great Britain: Parliament: House of Commons: Health Committee, 2012-07-19 The main focus of the alcohol strategy is binge drinking and its consequences for anti-social behaviour. Those are important issues, but the health impact of chronic alcohol misuse is also significant and greater emphasis needs to be placed on addressing that impact. In order to be effective the Strategy needs some clearer objectives to provide a framework for both policy judgements and accountability. The Committee recommends that Public Health England should have a central role in developing these objectives, and linking them to local strategies in every area across the country. The Committee supports the decision to introduce a minimum unit price for alcohol, but a transparent process must be put in place in order to ensure that the price level is evidence-based and is monitored to assess its effectiveness. The Committee concludes that: the Responsibility Deal is intrinsic to responsible corporate citizenship, but it is not a substitute for Government policy; the alcohol industry needs to acknowledge that its advertising messages do have an effect on attitudes if it wishes to be seen as a serious committed partner in the Responsibility; rules on alcohol advertising should be re-examined to reduce the likelihood of adverts influencing young people under 18; Public Health England should undertake an evaluation of the effectiveness of the Responsibility Deal and should commission a study into the principles and implications of introducing the French Loi Evin; the Department of Health's work on which models of treatment provision are most effective in addressing the health issues caused by alcohol abuse is welcome
