Chronic Marketer Brad Gosse, 2012-02-28 Confessions Of A Half-Baked (But Highly Paid) Internet Marketer How would you like to: Embrace your laziness Build an automated business Change rules in your favor Smash your alarm clock Forget your fears and flaws Enjoy the chronic lifestyle Earn the envy of your peers Have fun every day I remember once speaking to a man who was frustrated with his status. He was upset and explained to me how he had worked hard in school, gone to college to get a degree and paid his dues in the corporate world, however, today he is working in a startup for a high school dropout CEO. Sympathizing with this man I told him my story. I too had worked hard, and paid my dues. After dropping out of high school I worked for various companies learning what I liked and didn't like about business. I then worked really hard to build my own business and now I have college graduates working for me. This is a book about building your own future. Whether you enjoy a little weed now and then or not, you will learn how I built my business online, giving me over 5000 mornings without an alarm clock, bosses, investors or crappy clients. My business makes me money regardless of my personal schedule. I can go to the spa, play Call Of Duty, read, or eat brownies and pass out. Every time I check my accounts there is more money. It wasn't easy for me to get here. Which is why I wrote this book, to hopefully make it easier for you. Order your copy of the Chronic Marketer now and start living the Chronic Marketer lifestyle as a HIGH functioning entrepreneur.

Confessions of the Pricing Man Hermann Simon, 2015-10-20 The world's foremost expert on pricing strategy shows how this mysterious process works and how to maximize value through pricing to company and customer. In all walks of life, we constantly make decisions about whether something is worth our money or our time, or try to convince others to part with their money or their time. Price is the place where value and money meet. From the global release of the latest electronic gadget to the bewildering gyrations of oil futures to markdowns at the bargain store, price is the most powerful and pervasive economic force in our day-to-day lives and one of the least understood. The recipe for successful pricing often sounds like an exotic cocktail, with equal parts psychology, economics, strategy, tools and incentives stirred up together, usually with just enough math to sour the taste. That leads managers to water down the drink with hunches and rules of thumb, or leave out the parts with which they don't feel comfortable. While this makes for a sweeter drink, it often lacks the punch to have an impact on the customer or on the business. It doesn't have to be that way, though, as Hermann Simon

illustrates through dozens of stories collected over four decades in the trenches and behind the scenes. A world-renowned speaker on pricing and a trusted advisor to Fortune 500 executives, Simon's lifelong journey has taken him from rural farmers' markets, to a distinguished academic career, to a long second career as an entrepreneur and management consultant to companies large and small throughout the world. Along the way, he has learned from Nobel Prize winners and leading management gurus, and helped countless managers and executives use pricing as a way to create new markets, grow their businesses and gain a sustained competitive advantage. He also learned some tough personal lessons about value, how people perceive it, and how people profit from it. In this engaging and practical narrative, Simon leaves nothing out of the pricing cocktail, but still makes it go down smoothly and leaves you wanting to learn more and do more—as a consumer or as a business person. You will never look at pricing the same way again.

Ask a Manager Alison Green,2018-05-01 'I'm a HUGE fan of Alison Green's Ask a Manager column. Confessions of an IT Manager Phil Factor,2009 Phil Factor is a legend in his own runtime. Scurrilous, absurd, confessional and scathing by turns, *Confessions of an IT Manager* targets the idiocy, incompetence and overreach of the IT management industry from vantage point all the way up and down the greasy pole. Phil Factor (real name withheld to protest the guilty) has over 20 years experience in the IT industry, specializing in database-intensive applications. For withering insight into the human weaknesses and farcical levels of ineptitude that bring IT projects to their knees, plus occasional escapes into burnished pastiche and cock-a-leg doggerel there is no funnier, more illuminating commentary on the IT crowd.

Get Rich Click! Marc Ostrofsky,2013-01-08 The Internet is changing the way business is conducted and fortunes are made. *Get Rich Click!* shows readers how to jump in and begin making money online immediately.

The Art of Confession Christopher Grobe,2017-11-07 *The Art of Confession* tells the history of this cultural shift and of the movement it created in American art: confessionalism. Like realism or romanticism, confessionalism began in one art

form, but soon pervaded them all: poetry and comedy in the 1950s and '60s, performance art in the '70s, theater in the '80s, television in the '90s, and online video and social media in the 2000s. Everywhere confessionalism went, it stood against autobiography, the art of the closed book. Instead of just publishing, these artists performed--with, around, and against the text of their lives. --

Becoming Leonardo Mike Lankford, 2018-04-03 A Wall Street Journal Book of the Year A Spectator Book of the Year “A truly intimate portrait of one of the greatest creators in human history,” this biography of Leonardo Da Vinci “has the pace, elegance, and authorial omnipresence of a novel,” bringing both artist and Renaissance Italy to life (Noah Charney, author of *The Art of Forgery*) Why did Leonardo Da Vinci leave so many of his major works uncompleted? Why did this resolute pacifist build war machines for the notorious Borgias? Why did he carry the Mona Lisa with him everywhere he went for decades, yet never quite finish it? Why did he write backwards, and was he really at war with Michelangelo? And was he gay? In a book unlike anything ever written about the Renaissance genius, Mike Lankford explodes every cliché about Da Vinci and then reconstructs him based on a rich trove of available evidence—bringing to life for the modern reader the man who has been studied by scholars for centuries—yet has remained as mysterious as ever. Seeking to envision Da Vinci without the obscuring residue of historical varnish, the sights, sounds, smells, and feel of Renaissance Italy—usually missing in other biographies—are all here, transporting readers back to a world of war and plague and court intrigue, of viciously competitive famous artists, of murderous tyrants with exquisite tastes in art . . . Lankford brilliantly captures Da Vinci’s life as the compelling and dangerous adventure it seems to have actually been—fleeing from one sanctuary to the next, somehow surviving in war zones beside his friend Machiavelli, struggling to make art his way or no way at all . . . and often paying dearly for those decisions. It is a thrilling and absorbing journey into the life of a ferociously dedicated loner, whose artwork in one way or another represents his noble rebellion, providing inspiration that is timeless.

The Last Thing You Surrender Leonard Pitts, 2019-02-05 Three Americans in the Jim Crow South face enormous

changed triggered by World War II in this epic novel by the Pulitzer-winning author of Freeman. Could you find the courage to do what's right in a world on fire? An affluent white marine survives Pearl Harbor at the cost of a black messman's life only to be sent, wracked with guilt, to the Pacific and taken prisoner by the Japanese. A young black woman, widowed by the same events at Pearl Harbor, finds unexpected opportunity and a dangerous friendship in a segregated Alabama shipyard feeding the war. Meanwhile, a black man, who as a child saw his parents brutally lynched, is conscripted to fight Nazis for a country he despises and discovers a new kind of patriotism in the all-black 761st Tank Battalion . . . Set against a backdrop of violent racial conflict on both the front lines and the home front, *The Last Thing You Surrender* explores the powerful moral struggles of individuals from a divided nation. What does it take to change someone's mind about race? What does it take for a country and a people to move forward, transformed? Praise for *The Last Thing You Surrender* "A story of our nation at war, with itself as well as tyranny across the globe. It's an American tapestry of hatred, compassion, fear, courage, and cruelties, leavened with the promise of triumph. A powerful story I will not soon forget." —James R. Benn, author of the Billy Boyle WWII mysteries "Seamlessly integrates impressive research into a compelling tale of America at war—overseas, at home, and within ourselves, as we struggle to find the better angels of our nature. Pitts poignantly illustrates ongoing racial and class tensions, and offers hope that we can overcome hatred by refusing to sacrifice dignity." —Booklist, starred review

Bad Pharma Ben Goldacre, 2013-02-05 We like to imagine that medicine is based on evidence and the results of fair testing and clinical trials. In reality, those tests and trials are often profoundly flawed. We like to imagine that doctors who write prescriptions for everything from antidepressants to cancer drugs to heart medication are familiar with the research literature about a drug, when in reality much of the research is hidden from them by drug companies. We like to imagine that doctors are impartially educated, when in reality much of their education is funded by the pharmaceutical industry. We like to imagine that regulators have some code of ethics and let only effective drugs onto the market, when in reality they approve useless drugs, with data on side effects casually withheld from doctors and patients. All these problems have been shielded from public scrutiny because they're too complex to capture in a sound bite. But Ben Goldacre shows that the true scale of this murderous disaster fully reveals itself only when the details are untangled. He believes we should all be able to understand precisely how data manipulation works and how research misconduct in the medical industry affects us on a global scale. With Goldacre's characteristic flair and a forensic attention to detail, *Bad Pharma* reveals a shockingly broken system and calls for regulation. This is the pharmaceutical industry as it has never been seen before.

Life Among the Savages Shirley Jackson, 1997-10-01 Shirley Jackson, author of the classic short story *The Lottery*, was known for her terse, haunting prose. But the writer possessed another side, one which is delightfully exposed in this hilariously charming memoir of her family's life in rural Vermont. Fans of *Please Don't Eat the Daisies*, *Cheaper by the Dozen*, and anything Erma Bombeck ever wrote will find much to recognize in Shirley Jackson's home and neighborhood:

children who won't behave, cars that won't start, furnaces that break down, a pugnacious corner bully, household help that never stays, and a patient, capable husband who remains lovingly oblivious to the many thousands of things mothers and wives accomplish every single day. Our house, writes Jackson, is old, noisy, and full. When we moved into it we had two children and about five thousand books; I expect that when we finally overflow and move out again we will have perhaps twenty children and easily half a million books. Jackson's literary talents are in evidence everywhere, as is her trenchant, unsentimental wit. Yet there is no mistaking the happiness and love in these pages, which are crowded with the raucous voices of an extraordinary family living a wonderfully ordinary life. Continuously in print since 1948, Jackson's *Haunting of Hill House* has been bought by Dreamworks.

Your Post Has Been Removed Frederik Stjernfelt, Anne Mette Lauritzen, 2019-01-01 This open access monograph argues established democratic norms for freedom of expression should be implemented on the internet. Moderating policies of tech companies as Facebook, Twitter and Google have resulted in posts being removed on an industrial scale. While this moderation is often encouraged by governments - on the pretext that terrorism, bullying, pornography, hate speech and fake news will slowly disappear from the internet - it enables tech companies to censor our society. It is the social media companies who define what is blacklisted in their community standards. And given the dominance of social media in our information society, we run the risk of outsourcing the definition of our principles for discussion in the public domain to private companies. Instead of leaving it to social media companies only to take action, the authors argue democratic institutions should take an active role in moderating criminal content on the internet. To make this possible, tech companies should be analyzed whether they are approaching a monopoly. Antitrust legislation should be applied to bring those monopolies within democratic governmental oversight. Despite being in different stages in their lives, Anne Mette is in the startup phase of her research career, while Frederik is one of the most prolific philosophers in Denmark, the authors found each other in their concern about Free Speech on the internet. The book was originally published in Danish as *Dit opslag er blevet fjernet - techgiganter & ytringsfrihed*. Praise for 'Your Post has been Removed' From my perspective both as a politician and as private book collector, this is the most important non-fiction book of the 21st Century. It should be disseminated to all European citizens. The learnings of this book and the use we make of them today are crucial for every man, woman and child on earth. Now and in the future. Jens Rohde, member of the European Parliament for the Alliance of Liberals and Democrats for Europe This timely book compellingly presents an impressive array of information and analysis about the urgent threats the tech giants pose to the robust freedom of speech and access to information that are essential for individual liberty and democratic self-government. It constructively explores potential strategies for restoring individual control over information flows to and about us. Policymakers worldwide should take heed! Nadine Strossen, Professor, New

York Law School. Author, *HATE: Why We Should Resist It with Free Speech, Not Censorship*.

The Art of Client Service Robert Solomon, 2016-03-17 A practical guide for providing exceptional client service Most advertising and marketing people would claim great client service is an elusive, ephemeral pursuit, not easily characterized by a precise skill set or inventory of responsibilities; this book and its author argue otherwise, claiming there are definable, actionable methods to the role, and provide guidance designed to achieve more effective work. Written by one of the industry's most knowledgeable client services executives, the book begins with a definition, then follows a path from an initial new business win to beginning, building, losing, then regaining trust with clients. It is a powerful source of counsel for those new to the business, for industry veterans who want to refresh or validate what they know, and for anyone in the middle of the journey to get better at what they do.

Of Wars, and Memories, and Starlight Aliette de Bodard, 2020-09-30 A stunning and vibrant collection from a rising star of the genre. This collection of fourteen tales showcase the range and talent that garnered Aliette de Bodard multiple awards, from Nebulas to the Locus Award. From a dark Gothic Paris devastated by a magical war, where Fallen angels, dragons and magicians intrigue in the drawing rooms of ruined mansions; to the Vietnamese-tinged space opera universe of Xuya, where sentient spaceships become the heart and living memory of families and scholar-officials travel from planets to space stations. In the Nebula award and Locus award winning "Immersion", two women on a colonised space station grapple with loss of identity and culture. In the Hugo finalist "Children of Thorns, Children of Water", a shapeshifting dragon on an infiltration mission to a ruined mansion must rescue his partner from creepy, child-like creatures. And in "A Salvaging of Ghosts," a diver-scavenger cast off into deep spaces faces a dying midship and the ghost of her daughter. Unique to this collection is a new novella, "Of Birthdays, and Fungus, and Kindness", set in Bodard's alternative dark Paris. Praise for *Of Wars, and Memories, and Starlight*: "This stunning collection showcases de Bodard's lush worldbuilding, meticulous research, and emotional prose." —Library Journal (starred review) "De Bodard (*The House of Shattered Wings*, 2015) proves, again and again, that space opera can be intensely personal against its galactic backdrop.... The collection covers the consequences of war, survival in colonial culture, motherhood, mindships and space-travel, and aspects of grief." —Booklist

Rebel Cell Kat Arney, 2020-08-06 'A lively study of the Big C, which makes the case that cancer is the price we pay for our marvellously complicated bodies.' *The Times*, best books of 2020 'This book is packed with big ideas about life. Every chapter has something in it which made me think wow. Having worked in a major cancer charity for many years, Arney writes with genuine in-depth understanding and is a perfect guide.' Daniel M. Davis, author of *The Beautiful Cure* 'Rebel Cell is a bright, engaging read, fizzing with energy and metaphor. Kat Arney is a science writer for all of us - a powerful and talented storyteller.' Stephen McGann 'Kat's book is Dynamite. A crystal clear reappraisal of the story behind that word we fear to mention.' Dallas Campbell, author of *Ad Astra: An Illustrated Guide to Leaving the Planet* Cancer has always been with us. It killed our hominid ancestors, the mammals they evolved from and the dinosaurs that trampled the ground before that. Tumours grow in pets, livestock and wild animals. Even tiny jelly-like Hydra - creatures that are little more than a tube full of water - can get cancer. Paradoxically, many of us think of cancer as a contemporary killer, a disease of our own making caused by our modern lifestyles. But that's not true. Although it might be rare in many species, cancer is the enemy lurking within almost every living creature. Why? Because cancer is a bug in the system of life. We get cancer because we can't not get it. Cancer starts when cells revolt, throwing off their molecular shackles, and growing and dividing out of control in a

shambolic mockery of normal life. This is why we can't avoid cancer: because the very genes that drive it are essential for life itself. The revolution has raged, on and off, for millions of years. But it was only in the twentieth century that doctors and scientists made any significant progress in understanding and treating cancer, and it's only in the past few decades that we've finally begun to kick the mob's malignant arse. Now the game is changing. Scientists have infiltrated cancer's cellular rebellion and are finally learning its secrets. Geneticist and science writer Kat Arney takes the reader back to the dawn of life on planet earth right up to the present day to get to the heart of what cancer really is and how by better understanding it we might one day overcome it.
