Performance Management in Nonprofit Organizations Zahirul Hoque, Lee Parker, 2014-10-10 With increased competition for external funding, technological advancement, and public expectations for transparency, not-for-profit and non-governmental organizations are facing new challenges and pressures. While research has explored the roles of accounting, accountability, and performance management in nonprofit organizations, we still lack evidence on the best practices these organizations implement in the areas of accountability and performance management. This book collects and presents that evidence for the first time, offering insights to help nonprofits face these new challenges head-on. *Performance Management in Nonprofit Organizations* focuses on both conventional and contemporary issues facing nonprofits, presenting evidence-based insights from leading scholars in the field. Chapters examine the design, implementation, and working of accounting, accountability, governance, and performance management measures, providing both retrospective and contemporary views, as well as critical commentaries on accounting and performance related issues in nonprofit organizations. The book's contributors also offer critical commentaries on the changing role of accounting and performance management in this sector. This research-based collection is an interesting and useful read for academics, practitioners, students, and consultants in nonprofit organizations, and is highly accessible to accounting and non-accounting audiences alike.

Understanding Australian Accounting Standards Janice Loftus, Kenneth J. Leo, Kerry Clark, Ruth Picker, Victoria J Wise, 2012-11-12 *Understanding Australian Accounting Standards* reflects the reporting and disclosure requirements under a number of Australian Accounting Standards, providing detailed illustration on how publicly listed companies report in accordance with Australian Accounting Standards. This textbook offers students a comprehensive and well written introduction to the scope and financial reporting disclosures of Australian accounting standards issued by the Australian Accounting Standards Board. The text incorporates extracts from the 2011 annual report of Billabong International, as well as media articles profiling its recent corporate events, in all chapters to illustrate how a corporate entity measures, recognises, reports and discloses financial information required under Australian accounting standards. The integration of the Billabong International annual report will enable students to look beyond the numbers to develop interpretative and critical evaluation skills of accounting information. The integration of the Billabong 2011 annual report, with its disclosure notes, will provide students with a deep understanding of the financial reporting and business activity associated with the financial performance of a well-known company.

Securities Regulation in Australia and New Zealand Gordon R. Walker, Brent Fisse, 1994 The regulation of securities markets is a survival issue for island nations such as Australia and New Zealand which require foreign investment for economic growth. This timely book covers all aspects of securities regulation--from the physical markets and the operation of the Stock Exchanges to the workings of the Securities Commissions. It should be of interest to legal practitioners, accountants, and persons involved in finance.
