Jennifer D. Berton

Uppers, Downers, All Arounders Darryl Inaba, 2014

Fear and Loathing in Las Vegas Hunter S. Thompson, 1998 Records the experiences of a free-lance writer who embarked on a zany journey into the drug culture.

War and Drugs Dessa K. Bergen-Cico, 2015-11-17 War and Drugs explores the relationship between military incursions and substance use and abuse throughout history. For centuries, drugs have been used to weaken enemies, stimulate troops to fight, and quell post-war trauma. They have also served as a source of funding for clandestine military and paramilitary activity. In addition to offering detailed geopolitical perspectives, this book explores the intergenerational trauma that follows military conflict and the rising tide of substance abuse among veterans, especially from the Vietnam and Iraq-Afghan eras. Addiction specialist Bergen-Cico raises important questions about the past and challenges us to consider new approaches in the future to this longest of US wars.

Structured Relapse Prevention Marilyn Herie, Annis, Helen, Lyn Watkin-Merek, 2006 Structured Relapse Prevention provides the substance use treatment field with an effective program for clients seeking to maintain change and avoid relapse. Completely revised, expanded and redesigned, this new edition features session-by-session guides, clinical tools and a comprehensive set of coping skills exercises for use with clients. Structured Relapse Prevention (SRP) is a brief, cognitive behavioural, manual-based counselling approach that is used in a variety of settings. SRP is designed for people with moderate to severe substance dependence, and is typically delivered in eight to 12 group or individual counselling sessions. Structured Relapse Prevention presents all the materials you need to offer SRP counselling in an easy-to-follow, user-friendly style. This second edition includes: a new section presenting an extensive treatment protocol and tools for treating clients with concurrent substance use and mental health problems new and revised clinical tools to offer SRP to both group and individual clients sections on assessment, motivational enhancement and individualized treatment planning, to help prepare clients for treatment screening and assessment tools, homework assignments and therapist checklists, to engage and motivate clients who are ambivalent about changing their substance use sections on initiating and maintaining change, accompanied by a comprehensive selection of coping skills exercises that can be assigned as homework or discussed during treatment sessions a CD-ROM, from which all the client tools and exercises can be accessed and printed.

Heroin Humberto Fernandez,1998 This is a blunt, comprehensive, and unbiased look at the realities and myths of a drug that has long been cultivated, demonized and romanticized for over 7000 years. It represents a current, no-nonsense reference on heroin's pharmacology, the sociology and psychology of its use, the political, legal, and criminal justice ramifications associated with its use, its social impact, and the best practice in treatment.

Seers Kristine Bowe,2013-08-01 On the surface, Leesie's just another seventeen-year-old orphan, bouncing from one high school to the next. In actuality, she's a Seer on clandestine missions. Leesie possesses the power to travel into layers of memory manipulating her conquests as directed by the clandestine organization of Seers and her enigmatic preceptor, Tobias. When challenged by her latest mission, Leesie will be left questioning where her true loyalty lies. Why is it suddenly difficult to obtain the information she needs? What's allowing her to remember fragments of her hazy past? And why is it so hard for Leesie to see who has been plotting against her all along? An engrossing contemporary novel, SEERS explores the fine line between friend and foe and the beauty of determining which memories—new and old—make us who we are. SEERS is the winner of the National Association of Elementary School Principals (NAESP) Children's Book Competition in the Chapter Book category.

Straight Talk about Professional Ethics, Second Edition Kim Strom-Gottfried,2014-06 How does one make the right choices when faced with ethical dilemmas? Social service professionals use a unique set of principles to guide their decisions within a broad and complex array of situations. *Straight Talk about Professional Ethics, Second Edition* provides readers with the guidelines that will help them make decisions in a manner that is clinically and ethically effective. This book explains the seven core concepts that guide ethical practice in the helping professions: self-determination, informed consent, competence, confidentiality and privacy, attention to conflicts of interest, maintenance of professional boundaries, and professionalism and integrity. Developing a commitment to the ethics of a profession and an understanding of how those ethics apply to commonly occurring workplace situations is a major element of professional preparation.

Inside Rehab Anne M. Fletcher, 2013-02-07 An eye-opening tour of the addiction treatment industry explores the gap between what should happen and what does What happens inside drug and alcohol rehabilitation centers and how rehab works are a mystery to those outside the industry - and sometimes even to those inside it. Anne M. Fletcher is a trusted New York Times bestselling health and medical writer who visited 15 addiction treatment centers—from outpatient programs for the indigent to famous celebrity rehabs; from the sites of renowned Twelve-Step centers to several unconventional programs—to find out what really happens. What she reveals ranges from inspirational to irresponsible, and, in some cases, potentially dangerous. Real Stories: As always with her books, Fletcher gets the inside story by turning to real people who “have been there,” interviewing more than 100 individuals whose compelling stories illustrate serious issues facing people in rehab and endemic in the rehab industry today. Connected Writer and Researcher who has earned the respect (and cooperation) of experts throughout the fields she’s taken on. Inside Rehab is no exception—Fletcher has interviewed more than 100 professionals working in the field, including a mix of rehab staffers and administrators as well as leading academics. Rehab is constantly covered in the media, as celebrities battle their drug and alcohol issues in the spotlight and reality TV puts recovery in prime time. Addiction is no longer only a personal struggle—it’s a pop culture phenomenon. Myth Busting: Fletcher exposes twelve supposed facts for the falsehoods they are, including “rehab is necessary for most people to recover from addictions;” “highly trained professionals provide most of the treatment in addiction programs;” and “drugs should not be used to treat a drug addict.” Fletcher’s most important finding is the alarming discrepancy between the treatments being employed at many rehab centers and the treatments recommended by leading experts and supported by scientific research. Guidance and Practical Solutions: Inside Rehab also highlights what is working, spotlights state-of-the-art programs and practices, and offers advice and guidance for people seeking quality care and treatment for themselves or those they care about. Inside Rehab is the first book to give readers a thoughtful, sensitive, and bracingly honest insider’s view of the drug and alcohol rehab industry in America. For people seeking quality care for themselves or a loved one, Inside Rehab is essential reading, offering a wealth of accurate information and wise guidance.

The Disease of Addiction Joseph Caravella, 2019-06-02 Joseph Caravella, MA LADC currently practices as an addiction therapist for the Hazelden Betty Ford Foundation at their campus in Center City, Minnesota. As an educator he's known for his high energy, breathtaking lectures (on addiction, forgiveness, and love). In *The Disease of Addiction*, he masterfully unravels the complexities of the addicted brain, breaks down the fundamental components of addiction in easy-to-understand terms, and paints a detailed clinical picture with color sourced from his own harrowing experiences with addiction, mental illness, and early recovery. Foreword by the author: I've been formally studying addiction since 2011 while also walking my own path in recovery that began in 2008. Even after years of self-study, thousands of twelve-step meetings, graduate school, and professional experience treating the illness, my experience shows that this disease is not the easiest subject to grasp. But knowledge truly is power. And after studying the best textbooks and reports on the neurobiology of addiction, I believe the information in them is sound and of the utmost importance. That said, I also think the packaging and delivery of the material should be more accessible to addicted people, their family and friends, and anyone curious to learn more about the disease. I've been privileged to lecture on the disease of addiction to large treatment populations for years. Inspired by requests for written material beyond my lectures and by my personal mission to improve addiction education, this short book is a meditation on the evolutionary perspective of chemical use, the origins of the Alcoholics Anonymous program, our present understanding of the neurobiology of addiction, and how the twelve-step solution is well supported by scientific evidence. I also describe the correlation between physiological stress response in early recovery and a spirituality-based approach to recovery in a manner that I haven't seen in the literature. In this book, I'm specifically speaking to the person unsure about addiction as a disease but also pained by the consequences of their chemical use. To me, this person is the newcomer to recovery, and they are the most important person about whom I should be concerned when discussing addiction and recovery. Special thanks to my clients, family, teachers, guides, mentors, colleagues, bosses, and especially my wife for making this possible. I was taught that I can only keep what peace and love I have by freely giving it away. In part, this is my love to you.

Patient Records and Addiction Treatment, Fourth Edition Gerry Coughlin, Sherry S. Kimbrough, Landon L. Kimbrough, 2008-09 Since the first edition of this book in 1996, the addiction treatment field continues to undergo changes that affect the usefulness of this book. In an effort to include information that assists students and practitioners to use best practices, we have added a substantial amount of information and included additional resources for further investigation. Our

format integrates current information and research, principles of sound clinical practice and practical experience. Our intention is to outline the procedures and rationale of case management and clinical documentation to give readers some background as well as information regarding current practice.

The Feeling Brain Mark Solms,2018-04-17 This book focuses on the matter of neuropsychanalysis. It shows how the neuropsychanalytic approach makes it possible to begin to locate within the tissues of the brain some of the metapsychological abstractions that Sigmund Freud derived from his work with purely psychiatric disorders.

Becoming an Addictions Counselor Peter L. Myers,Norman R. Salt,2018-03-06 Becoming an Addictions Counselor, Fourth Edition provides evidence-based findings, cutting-edge treatment techniques, and a focus on critical thinking to show future counselors how to respond to clients' needs rather than impose cookie-cutter routines.

Loosening the Grip: A Handbook of Alcohol Information, 11th Edition Jean Kinney,2019-03-18 Jean Kinney, Lecturer in Community and Family Medicine at Dartmouth Medical School, was the Associate Director of the Alcohol Counselor Training Program at Dartmouth conducted between 1972 and 1978. That program was the impetus for this text. Upon completion of the Alcohol Counselor Training Program, she became involved with Project Cork, a program established to develop and implement a model curriculum for medical student education and to create materials for health care professionals. She continues to be involved in professional development initiatives in the substance abuse field. In 1999, she was the first recipients of the Harold Hughes Award given annually by the National Institute of Medicine's National Institute on Alcohol Abuse and Alcoholism. It is given in recognition for efforts to assist in the translation of scientific research into clinical practice. Loosening the Grip was one of her efforts cited in this award. Accessible and comprehensive, Loosening the Grip remains an authoritative source for information about alcohol use and the problems associated with it, while also addressing the relationship between alcohol use and other drug use. This text presents the physical and psychological effects of alcohol alongside the impact of alcohol use on family and society. Special attention is given to addressing the range of responses to alcohol problems, prevention, harm reduction, brief treatment, engagement in treatment and aftercare, and addressing high risk drinking. Along with providing a historical foundation for the discussion of substance use, the book explains the facts about this complex issue in clear, engaging language. Loosening the Grip is widely recognized as a useful resource for future and current health care workers - substance abuse clinicians, school counselors, mental health workers, community nurses, and others.

Adolescent Nutrition Yolanda N. Evans, Alicia Dixon Docter, 2020-09-21 Adolescents have unique nutritional needs when compared to young children and adults. As youth go through physical, cognitive, and behavioral development, nutrition needs are dynamic and changing. If these needs go undetected and remain unaddressed, the results can derail physical and social maturation and include life-long effects on health. This comprehensive text offers a multidisciplinary perspective on aspects of adolescent nutrition. Using clinical cases, it covers relevant topics related to adolescent health including normal development, chronic health conditions, and complex biopsychosocial dynamics, among others. The first section of the text contains an overview of adolescent nutrition that is further broken down into more specific topics such as developmental nutrition needs, needs of active youth and athletes and media influences on body image. The next section focuses on health disparities such as culturally appropriate care, health equity, international considerations and food insecurity. The following section specifically addresses eating disorders ranging from anorexia and bulimia to binge eating. Finally, the last section covers additional health considerations such as polycystic ovarian syndrome, teen pregnancy, substance use and gender non-conforming youth. Written by experts in the field, this book is a helpful resource for primary care medical providers, registered dietitians/nutritionists (RDN), adolescent medicine specialists, as well as advanced practice nurses, physician assistants, psychologists, licensed social workers, and certified athletic trainers. /div
