The Path of a Genocide Astri Suhrke, 2017-07-05 The Great Lakes region of Africa has seen dramatic changes. After a decade of war, repression, and genocide, loosely allied regimes have replaced old-style dictatorships. The Path of a Genocide examines the decade (1986-97) that brackets the 1994 genocide in Rwanda. This collection of essays is both a narrative of that event and a deep reexamination of the international role in addressing humanitarian issues and complex emergencies. Nineteen donor countries and seventeen multilateral organizations, international agencies, and international nongovernmental organizations pooled their efforts for an in-depth evaluation of the international response to the conflict in Rwanda. Original studies were commissioned from scholars from Uganda, Rwanda, Zaire, Ethiopia, Norway, Great Britain, France, Canada, and the United States. While each chapter in this volume focuses on one dimension of the Rwanda conflict, together they tell the story of this unfolding genocide and the world's response. The Path of a Genocide offers readers a perspective in sharp contrast to the tendency to treat a peace agreement as the end to conflict. This is a detailed effort to make sense of the political crisis and genocide in Rwanda and the effects it had on its neighbors.

International Perspectives on Spinal Cord Injury World Health Organization, International Spinal Cord Society, 2013 Every year between 250 000 and 500 000 people suffer a spinal cord injury, with road traffic crashes, falls and violence as the three leading causes. People with spinal cord injury are two to five times more likely to die prematurely. They also have lower rates of school enrollment and economic participation than people without such injuries. Spinal cord injury has costly consequences for the individual and society, but it is preventable, survivable and need not preclude good health and social inclusion. Ensuring an adequate medical and rehabilitation response, followed by supportive services and accessible environments, can help minimize the disruption to people with spinal cord injury and their families. The aims of International perspectives on spinal cord injury are to: ---assemble and summarize information on spinal cord injury, in particular the epidemiology, services, interventions and policies that are relevant, together with the lived experience of people with spinal cord injury; ---make recommendations for actions based on this evidence that are consistent with the aspirations for people with disabilities as expressed in the Convention on the Rights of Persons with Disabilities.

Comparative Grammar of Spanish, Portuguese, Italian and French Mikhail Petrunin, 2018-06-25 Nowadays thousands of grammar books, textbooks, outlines, references and language guides of Spanish, Portuguese, Italian and French are

published year by year. However, all of them teach these languages separately. Here you will find a comparative grammar of the four major Romance languages together based on their grammatical and lexical similarities for you, lovers of foreign languages, to learn and compare Spanish, Portuguese, Italian and French simultaneously. It is an audacious endeavor to find or create a novel way of learning to speak several languages and becoming a multilingual person. It took me over 3 years to finish the book. It consists of over 800 pages, 10 chapters covering all the grammatical aspects of these 4 languages. It includes over 1000 examples, 500 easy-to-follow charts and tables. It contains 138 geographical, historical and cultural facts about Spanish, Portuguese, Italian and French countries. Below I will discuss several reasons why I decided to write this book and why you need it. 1) First of all, this book is written for readers like you who are fond of or would like to learn Spanish, Portuguese, Italian and French simultaneously or just to get an all-round knowledge of all these four Romance languages. It is designed not only for beginners who do not have an extensive knowledge of grammar, yet need a guide through the grammatical concepts of all mentioned above languages, but also intermediate and advanced students who would like to have a reference book of several Romance languages at once. 2) Second of all I spent many years learning these languages separately, which was a complete waste of time before I realized it. This book will hopefully save you a great deal of time and allow you to study and compare at a glance the four main Neo-Latin languages. 3) Knowledge of foreign languages is fast becoming a necessary requirement for those who are involved in international business, tourism, culture and education. This book offers you four languages to learn, which will make you feel at homewherever you go, whether as a tourist or businessman. 4) Learning several languages simultaneously or one by one will train and strengthen your memory and can help stave off such terrible diseases as Alzheimer's. 5) If you have never studied several languages at once before and you like challenges, then you should definitely try it. Because it is a really entertaining and challenging task to do. In conclusion, I would like to sincerely thank you for preordering the book and your interest in it. I hope it will help you improve your languages and become multilingual.

Memory and Utopia Luisa Passerini, 2017-07-05 'Memory and Utopia' looks at the connection between memory and forgetfulness in Europe during the twentieth century. Drawing on oral history and feminist theory and practice, the book highlights how women struggled to be recognized as full subjects. The themes of utopia and desire in the 1968 movements of students, women and workers are explored. 'Memory and Utopia' examines the sense of belonging to Europe that has emerged in the last twenty years. The book analyses European identity as expressed through identities based on gender, age

and culture to explore an inclusive and non-hierarchical subjectivity.

The Limits of Humanitarian Intervention Alan J. Kuperman, 2004-05-13 In 1994 genocide in Rwanda claimed the lives of at least 500,000 Tutsi—some three-quarters of their population—while UN peacekeepers were withdrawn and the rest of the world stood aside. Ever since, it has been argued that a small military intervention could have prevented most of the killing. In *The Limits of Humanitarian Intervention*, Alan J. Kuperman exposes such conventional wisdom as myth. Combining unprecedented analyses of the genocide's progression and the logistical limitations of humanitarian military intervention, Kuperman reaches a startling conclusion: even if Western leaders had ordered an intervention as soon as they became aware of a nationwide genocide in Rwanda, the intervention forces would have arrived too late to save more than a quarter of the 500,000 Tutsi ultimately killed. Serving as a cautionary message about the limits of humanitarian intervention, the book's concluding chapters address lessons for the future.

Emotional and Ethical Challenges for Field Research in Africa S. Thomson, A. Ansoms, J. Murison, 2012-11-13 Academic literature rarely gives an account of the ethical challenges and emotional pitfalls the researcher is confronted with before, during and after being in the field. Giving personal accounts, the authors explore some of the challenges one can face when engaging in local-level research in difficult situations.

Re-Imagining Rwanda Johan Pottier, 2002-09-26 Pottier examines how a persuasive analysis of the situation in Rwanda exacerbated the original crisis.

The Great Lakes of Africa Jean-Pierre Chrétien, 2006 The first English-language publication of a major history of the Great Lakes region of Africa. Though the genocide of 1994 catapulted Rwanda onto the international stage, English-language historical accounts of the Great Lakes region of Eastern Africa—which encompasses Burundi, eastern Congo, Rwanda, western Tanzania, and Uganda—are scarce. Drawing on colonial archives, oral tradition, archeological discoveries, anthropologic and linguistic studies, and his thirty years of scholarship, Jean-Pierre Chrétien offers a major synthesis of the history of the region, one still plagued by extremely violent wars. This translation brings the work of a leading French historian to an English-speaking audience for the first time. Chrétien retraces the human settlement and the formation of kingdoms around the sources of the Nile, which were discovered by European explorers around 1860. He describes these kingdoms' complex social and political organization and analyzes how German, British, and Belgian colonizers not only transformed and exploited the existing power structures, but also projected their own racial categories onto them. Finally, he shows how the independent states of the postcolonial era, in particular Burundi, Rwanda, and Uganda, have been trapped by their colonial and precolonial legacies, especially by the racial rewriting of the latter by the former. Today, argues Chrétien,

the Great Lakes of Africa is a crucial region for historical research--not only because its history is fascinating but also because the tragedies of its present are very much a function of the political manipulations of its past.

Jimmy Omair Ahmad,2010-12-01 In Moazzamabad, UP, too large to be a town and too backward to be a city, a young man stabs a police inspector and is beaten to death. The last words he speaks are, 'My name is Jimmy the Terrorist.' Journalists descend on the town, 'like shrill birds', and a long-time resident decides to tell a story that none of them will know. Jimmy was once Jamaal, son of Rafiq Ansari of Rasoolpur Mohalla, a Muslim neighbourhood in a Hindu town. And his story goes back a long way: to the time when Moazzamabad was named, after Aurangzeb's son; when Rafiq was seduced by the wealth and refinements of Shabbir Manzil and married Shaista; when the Hanuman temple grew ten storeys high and the head priest was elected mayor; when Shaista died, a mosque was brought down in Ayodhya and Rafiq became a mullah. As Jamaal grows up, watching both his father and his neighbourhood change and curfew reach Moazzamabad, he is changed himself. He becomes Jimmy, one among the countless marginalized trying to find a place in the world, dimly aware that the choices that shape their lives are being made in distant places, where they have no influence. Shortlisted for the Man Asian Prize 2009, this spare, compelling novel, as intimate as it is political, confirms Omair Ahmad's reputation as one of the most distinctive and exciting new voices in Indian fiction.

Italian Opera Since 1945 Raymond Fearn,2014-06-11 First published in 1988. Italy, the birthplace of opera in the late sixteenth century, has in recent decades seen remarkable and vital musical growth, with composers as diverse as Luciano Berio and Nino Rota, Luigi Nono and Sylvano Bussotti, Giacomo Manzoni, Bruno Maderna and Salvatore Sciarrino. The musical theatre has figured prominently in the work of Italian composers during this period, ranging from operas conceived in a traditional mode to works of a Music Theatre variety, and in style from popular to avant-garde. In this book Raymond Fearn surveys this Italian musico-theatrical phenomenon in the period since the Second World War, examining a wide range of works such as Nono's *Intolleranza* and *Al Gran Sole* *Carico d'Amore*, Berio's *Passaggio* and *Un re in ascolto*, Manzoni's *Atomtod* and *La Sentenza* and Castiglioni's *Oberon* and *The King's Masque*, and places these developments within a cultural and theatrical context

Remembering the Future Luciano Berio,2006-05-30 Shares with us some musical experiences that 'invite us to revise or suspend our relation with the past and to rediscover it as part of a future trajectory'. This title provides insights on Luciano Berio's own compositions. It explores themes, such as transcription and translation, poetics and analysis, 'open work', and music theatre.

The Palgrave Handbook of Textbook Studies Eckhardt Fuchs,Annekatriin Bock,2018-04-04 This volume examines the present status and future trends of textbook studies. Cutting-edge essays by leading experts and emerging scholars explore

the field's theories, methodologies, and topics with the goal of generating debate and providing new perspectives. The Georg Eckert Institute's unique transdisciplinary focus on international textbook research has shaped this handbook, which explores the history of the discipline, the production processes and contexts that influence textbooks, the concepts they incorporate, how this medium itself is received and future trends. The book maps and discusses approaches based in cultural studies as well as in the social and educational sciences in addition to contemporary methodologies used in the field. The book aims to become the central interdisciplinary reference for textbook researchers, students, and educational practitioners.

Health, Civilization and the State Dorothy Porter, 2005-08-10 This book examines the social, economic and political issues of public health provision in historical perspective. It outlines the development of public health in Britain, Continental Europe and the United States from the ancient world through to the modern state. It includes discussion of: * pestilence, public order and morality in pre-modern times * the Enlightenment and its effects * centralization in Victorian Britain * localization of health care in the United States * population issues and family welfare * the rise of the classic welfare state * attitudes towards public health into the twenty-first century.

Post-Structuralism and the Question of History Derek Attridge, Geoff Bennington, Robert Young, 1987 Recent developments in literary theory, such as structuralism and deconstruction, have come under attack for neglecting history, while historically-based approaches have been criticized for failing to take account of the problems inherent in their methodological foundations. This collection of essays is unique in that it focuses on the relation between post-structuralism and historical (especially Marxist) literary theory and criticism. The volume includes a deconstructive reading of Marx, essays that relate history to the philosophical and institutional context, and a number of studies of particular texts, literary and non-literary, which pose the question of history and literary theory with particular force.

The Order Has Been Carried Out Alessandro Portelli, 2016-06-01 On March 24, 1944, Nazi occupation forces in Rome killed 335 unarmed civilians in retaliation for a partisan attack the day before. Portelli has crafted an eloquent, multi-voiced oral history of the massacre, of its background and its aftermath. The moving stories of the victims, the women and children who survived and carried on, the partisans who fought the Nazis, and the common people who lived through the tragedies of the war together paint a many-hued portrait of one of the world's most richly historical cities. *The Order Has Been Carried Out* powerfully relates the struggles for freedom under Fascism and Nazism, the battles for memory in post-war democracy, and the meanings of death and grief in modern society.

Utopia from Thomas More to Walter Benjamin Miguel Abensour, 2017 Utopia poses a question. Not simply in the sense of a problem to be resolved and at the same time eliminated . . . but in the sense that, within the economy of the human condition, utopia, the aim of social alterity--of all social otherness--is ceaselessly being reborn, coming back to life despite all

the blows rained down upon it, as if human resistance had taken up residence within it. For the French philosopher Miguel Abensour, the fictional genre of utopia has provided thinkers and artists a fertile ground to explore for the past 500 years, both as a way to imagine new emancipatory practices of shared existence and as a tyrannical imposition of power. Here, Abensour's project is to examine the idea of utopia in two different but powerful moments in its trajectory: first, utopia's beginning, when Thomas More sought a path for justice through a world in transformation, and second, when utopia faced its greatest danger, the moment that Walter Benjamin called catastrophe.
