Stephanie Kurschus

Rwanda, la cattiva memoria Daniele Scaglione, Françoise Kankindi, 2014-04-10 In Rwanda, nell'aprile 1994, l'esplosione della violenza provocava la morte di centinaia di migliaia di persone, forse un milione. Tra aprile e giugno viene commesso uno dei più grandi crimini della storia dell'umanità. Questo libro risponde ad alcune domande fondamentali. Perché l'Occidente non fece nulla per evitare il genocidio rwandese. Perché la comunità internazionale continua a mentire quando afferma che simili massacri non si ripeteranno più. Quanto il genocidio ha cambiato il Rwanda e l'Africa. Quali e quante sono le analogie esistenti tra ciò che accadde in Rwanda e fatti attuali come la guerra in Siria e la morte dei migranti nel mare davanti a Lampedusa. "Due decenni dopo, il mondo sembra non avere rimpianti. Si chiude nella sua menzogna e non ha la minima voglia di guardare in faccia la realtà. Molti dei nostri sopravvissuti vivono come se fossero ancora nel 1994. Alcuni sono tutt'oggi senza casa, il trauma cresce e tanti sono i problemi. È ora che la gente capisca che questo non può continuare. L'odio non avrà mai posto nel nostro Paese, perché abbiamo capito che questo sentimento è distruttivo. Dobbiamo lottare affinché i bambini rwandesi sappiano che cosa è successo, in modo da non cadere negli stessi errori". (Yolande Mukagasana) "Le pagine così ricche e generose di questo libro esigono anche qualcosa da noi, e spero che soprattutto in questo senso vengano lette. Per evitare gli errori, e gli orrori, del passato il ricordo non basta. Non basta istituire giornate o luoghi della memoria, tanto meno scrivere documenti che solennemente dicano "mai più". Bisogna fare in modo che quelle carte, quei luoghi, quelle giornate diventino veicolo di scelte coraggiose e comportamenti responsabili, nelle vite di tutti e nella vita di ogni giorno. Bisogna che la memoria del passato si trasformi in etica del presente. Il progresso umano, sociale e civile passa attraverso le coscienze e l'impegno di ciascuno di noi. È esattamente l'impegno che ci chiede questo libro". (Luigi Ciotti) "È il momento di pretendere giustizia per le vittime del genocidio, perché ogni genocidio, ovunque sia commesso, colpisce l'umanità intera e non può essere ignorato. Se è troppo tardi per salvare il milione di uomini, donne e bambini che sono stati violati, torturati e sterminati in Rwanda dalla notte tra il 6 e il 7 aprile al 18 luglio 1994, non sarà mai tardi per raccontarne la storia. Perché la loro storia ci riguarda, perché le cause e le dinamiche che hanno portato a questo genocidio possono verificarsi di nuovo e ovunque. Vent'anni di cattiva memoria sono troppi, ora basta". (Françoise Kankindi)

Comparative Grammar of Spanish, Portuguese, Italian and French Mikhail Petrunin, 2018-06-25 Nowadays thousands of grammar books, textbooks, outlines, references and language guides of Spanish, Portuguese, Italian and French are

published year by year. However, all of them teach these languages separately. Here you will find a comparative grammar of the four major Romance languages together based on their grammatical and lexical similarities for you, lovers of foreign languages, to learn and compare Spanish, Portuguese, Italian and French simultaneously. It is an audacious endeavor to find or create a novel way of learning to speak several languages and becoming a multilingual person. It took me over 3 years to finish the book. It consists of over 800 pages, 10 chapters covering all the grammatical aspects of these 4 languages. It includes over 1000 examples, 500 easy-to-follow charts and tables. It contains 138 geographical, historical and cultural facts about Spanish, Portuguese, Italian and French countries. Below I will discuss several reasons why I decided to write this book and why you need it. 1) First of all, this book is written for readers like you who are fond of or would like to learn Spanish, Portuguese, Italian and French simultaneously or just to get an all-round knowledge of all these four Romance languages. It is designed not only for beginners who do not have an extensive knowledge of grammar, yet need a guide through the grammatical concepts of all mentioned above languages, but also intermediate and advanced students who would like to have a reference book of several Romance languages at once. 2) Second of all I spent many years learning these languages separately, which was a complete waste of time before I realized it. This book will hopefully save you a great deal of time and allow you to study and compare at a glance the four main Neo-Latin languages. 3) Knowledge of foreign languages is fast becoming a necessary requirement for those who are involved in international business, tourism, culture and education. This book offers you four languages to learn, which will make you feel at homewherever you go, whether as a tourist or businessman. 4) Learning several languages simultaneously or one by one will train and strengthen your memory and can help stave off such terrible diseases as Alzheimer's. 5) If you have never studied several languages at once before and you like challenges, then you should definitely try it. Because it is a really entertaining and challenging task to do. In conclusion, I would like to sincerely thank you for preordering the book and your interest in it. I hope it will help you improve your languages and become multilingual.

International Perspectives on Spinal Cord Injury World Health Organization, International Spinal Cord Society, 2013
Every year between 250 000 and 500 000 people suffer a spinal cord injury, with road traffic crashes, falls and violence as the three leading causes. People with spinal cord injury are two to five times more likely to die prematurely. They also have lower rates of school enrollment and economic participation than people without such injuries. Spinal cord injury has costly consequences for the individual and society, but it is preventable, survivable and need not preclude good health and social inclusion. Ensuring an adequate medical and rehabilitation response, followed by supportive services and accessible environments, can help minimize the disruption to people with spinal cord injury and their families. The aims of International perspectives on spinal cord injury are to: --assemble and summarize information on spinal cord injury, in particular the epidemiology, services, interventions and policies that are relevant, together with the lived experience of people with spinal

cord injury; ---make recommendations for actions based on this evidence that are consistent with the aspirations for people with disabilities as expressed in the Convention on the Rights of Persons with Disabilities.

Memory and Utopia Luisa Passerini,2017-07-05 'Memory and Utopia' looks at the connection between memory and forgetfulness in Europe during the twentieth century. Drawing on oral history and feminist theory and practice, the book highlights how women struggled to be recognized as full subjects. The themes of utopia and desire in the 1968 movements of students, women and workers are explored. 'Memory and Utopia' examines the sense of belonging to Europe that has emerged in the last twenty years. The book analyses European identity as expressed through identities based on gender, age and culture to explore an inclusive and non-hierarchical subjectivity.

The Ultimate Safari Nadine Gordimer,2001

Mussolini's Death March Nuto Revelli,2013-04-05 In his quest for military glory, Benito Mussolini sent the Italian Eighth Army to the Eastern Front to help fight the Russians, only to have his forces routed within little more than a month of the launch of the Soviet counteroffensives of the winter of 1942-1943. The Cuneense, a division of mountain troops, was hit especially hard, with only a small percentage of its troops straggling back to Italy; the rest were killed in action or died of frostbite or in captivity from malnourishment, overwork, and disease. All told, the Italians suffered roughly 75,000 dead, more than in their six-month campaign in Greece and Albania or in their three years in North Africa. Nuto Revelli, who fought in Russia himself, interviewed forty-three other survivors of the campaign for a book that has become a classic among Italian war memoirs. First published in Italian in 1966 as *La strada del davai*, Revelli's account, now available in English, vividly recaptures the experiences and sobering reflections of these men. It provides a chilling look at an experience that, in English-language writing, has been overshadowed by that of the main actors on the Eastern Front. When news of the rout reached Italy, the shock was devastating. In Revelli's home province of Cuneo, the recruiting territory of the annihilated Cuneense Division, some villages lost almost all men of military age. The resulting rage and bitterness later fueled the partisan war against the Germans and Italian fascists. The veterans of Mussolini's Death March speak candidly of nights in the open, of extreme cold, gnawing hunger, and eruptive madness. Thousands who survived the Soviet onslaught were taken prisoner and died on the so-called *davai* marches-named for Russian guards' command to keep prisoners moving-or later in the camps themselves. Even so, they developed a favorable impression of the Russian people, who provided hospitality in their small houses and aid to the wounded. Together, their recollections provide an eye-opening look at a largely neglected aspect of World War II.

Emotional and Ethical Challenges for Field Research in Africa S. Thomson,A. Ansoms,J. Murison,2012-11-13 Academic literature rarely gives an account of the ethical challenges and emotional pitfalls the researcher is confronted with before,

during and after being in the field. Giving personal accounts, the authors explore some of the challenges one can face when engaging in local-level research in difficult situations.

Re-Imagining Rwanda Johan Pottier, 2002-09-26 Pottier examines how a persuasive analysis of the situation in Rwanda exacerbated the original crisis.

Post-Structuralism and the Question of History Derek Attridge, Geoff Bennington, Robert Young, 1987 Recent developments in literary theory, such as structuralism and deconstruction, have come under attack for neglecting history, while historically-based approaches have been criticized for failing to take account of the problems inherent in their methodological foundations. This collection of essays is unique in that it focuses on the relation between post-structuralism and historical (especially Marxist) literary theory and criticism. The volume includes a deconstructive reading of Marx, essays that relate history to the philosophical and institutional context, and a number of studies of particular texts, literary and non-literary, which pose the question of history and literary theory with particular force.

Jimmy Omair Ahmad, 2010-12-01 In Moazzamabad, UP, too large to be a town and too backward to be a city, a young man stabs a police inspector and is beaten to death. The last words he speaks are, 'My name is Jimmy the Terrorist.' Journalists descend on the town, 'like shrill birds', and a long-time resident decides to tell a story that none of them will know. Jimmy was once Jamaal, son of Rafiq Ansari of Rasoolpur Mohalla, a Muslim neighbourhood in a Hindu town. And his story goes back a long way: to the time when Moazzamabad was named, after Aurangzeb's son; when Rafiq was seduced by the wealth and refinements of Shabbir Manzil and married Shaista; when the Hanuman temple grew ten storeys high and the head priest was elected mayor; when Shaista died, a mosque was brought down in Ayodhya and Rafiq became a mullah. As Jamaal grows up, watching both his father and his neighbourhood change and curfew reach Moazzamabad, he is changed himself. He becomes Jimmy, one among the countless marginalized trying to find a place in the world, dimly aware that the choices that shape their lives are being made in distant places, where they have no influence. Shortlisted for the Man Asian Prize 2009, this spare, compelling novel, as intimate as it is political, confirms Omair Ahmad's reputation as one of the most distinctive and exciting new voices in Indian fiction.

The Ordinal of Alchemy Thomas Norton, 2019

The Palgrave Handbook of Textbook Studies Eckhardt Fuchs,Annekatriin Bock,2018-04-04 This volume examines the present status and future trends of textbook studies. Cutting-edge essays by leading experts and emerging scholars explore the field's theories, methodologies, and topics with the goal of generating debate and providing new perspectives. The Georg Eckert Institute's unique transdisciplinary focus on international textbook research has shaped this handbook, which explores the history of the discipline, the production processes and contexts that influence textbooks, the concepts they incorporate, how this medium itself is received and future trends. The book maps and discusses approaches based in cultural studies as well as in the social and educational sciences in addition to contemporary methodologies used in the field. The book aims to become the central interdisciplinary reference for textbook researchers, students, and educational practitioners.

The Order Has Been Carried Out Alessandro Portelli,2016-06-01 On March 24, 1944, Nazi occupation forces in Rome killed 335 unarmed civilians in retaliation for a partisan attack the day before. Portelli has crafted an eloquent, multi-voiced oral history of the massacre, of its background and its aftermath. The moving stories of the victims, the women and children who survived and carried on, the partisans who fought the Nazis, and the common people who lived through the tragedies of the war together paint a many-hued portrait of one of the world's most richly historical cities. *The Order Has Been Carried Out* powerfully relates the struggles for freedom under Fascism and Nazism, the battles for memory in post-war democracy, and the meanings of death and grief in modern society.

European Book Cultures Stephanie Kurschus,2014-11-28 Stephanie Kurschus analyses the idea of a common European book culture that integrates the book market as an essential aspect and employs book promotion as balancing instrument. Characteristics of book culture are identified; the resultant concept of book culture provides an overview of the values and myths ascribed to the book. Furthermore, applied book promotion measures are analyzed for their effectiveness and best practice models. Since, in a context determined by culture and market, preservation and innovation, book promotion fulfills two functions: it is to protect the unique national characteristics of book culture as well as to support its continuous development. To adapt and to advance within a changing environment is critical to the survival of book culture in the digital reality.

Utopia from Thomas More to Walter Benjamin Miguel Abensour,2017 Utopia poses a question. Not simply in the sense of a problem to be resolved and at the same time eliminated . . . but in the sense that, within the economy of the human condition, utopia, the aim of social alterity--of all social otherness--is ceaselessly being reborn, coming back to life despite all the blows rained down upon it, as if human resistance had taken up residence within it. For the French philosopher Miguel Abensour, the fictional genre of utopia has provided thinkers and artists a fertile ground to explore for the past 500 years, both as a way to imagine new emancipatory practices of shared existence and as a tyrannical imposition of power. Here,

Abensour's project is to examine the idea of utopia in two different but powerful moments in its trajectory: first, utopia's beginning, when Thomas More sought a path for justice through a world in transformation, and second, when utopia faced its greatest danger, the moment that Walter Benjamin called catastrophe.

Mirrors of Destruction Omer Bartov, 2000 He then examines the pacifist reaction in interwar France to show how it contributed to a climate of collaboration with dictatorship and mass murder.

The Great Lakes of Africa Jean-Pierre Chrétien, 2006 The first English-language publication of a major history of the Great Lakes region of Africa. Though the genocide of 1994 catapulted Rwanda onto the international stage, English-language historical accounts of the Great Lakes region of Eastern Africa--which encompasses Burundi, eastern Congo, Rwanda, western Tanzania, and Uganda--are scarce. Drawing on colonial archives, oral tradition, archeological discoveries, anthropologic and linguistic studies, and his thirty years of scholarship, Jean-Pierre Chrétien offers a major synthesis of the history of the region, one still plagued by extremely violent wars. This translation brings the work of a leading French historian to an English-speaking audience for the first time. Chrétien retraces the human settlement and the formation of kingdoms around the sources of the Nile, which were discovered by European explorers around 1860. He describes these kingdoms' complex social and political organization and analyzes how German, British, and Belgian colonizers not only transformed and exploited the existing power structures, but also projected their own racial categories onto them. Finally, he shows how the independent states of the postcolonial era, in particular Burundi, Rwanda, and Uganda, have been trapped by their colonial and precolonial legacies, especially by the racial rewriting of the latter by the former. Today, argues Chrétien, the Great Lakes of Africa is a crucial region for historical research--not only because its history is fascinating but also because the tragedies of its present are very much a function of the political manipulations of its past.
