Histories of Ornament Gülru Necipoğlu,Alina Payne,2016-03-08 This lavishly illustrated volume is the first major global history of ornament from the Middle Ages to today. Crossing historical and geographical boundaries in unprecedented ways and considering the role of ornament in both art and architecture, *Histories of Ornament* offers a nuanced examination that integrates medieval, Renaissance, baroque, and modern Euroamerican traditions with their Islamic, Indian, Chinese, and Mesoamerican counterparts. At a time when ornament has re-emerged in architectural practice and is a topic of growing interest to art and architectural historians, the book reveals how the long history of ornament illuminates its global resurgence today. Organized by thematic sections on the significance, influence, and role of ornament, the book addresses ornament's current revival in architecture, its historiography and theories, its transcontinental mobility in medieval and early modern Europe and the Middle East, and its place in the context of industrialization and modernism. Throughout, *Histories of Ornament* emphasizes the portability and politics of ornament, figuration versus abstraction, cross-cultural dialogues, and the constant negotiation of local and global traditions. Featuring original essays by more than two dozen scholars from around the world, this authoritative and wide-ranging book provides an indispensable reference on the histories of ornament in a global context. Contributors include: Michele Bacci (Fribourg University); Anna Contadini (University of London); Thomas B. F. Cummins (Harvard); Chanchal Dadlani (Wake Forest); Daniela del Pesco (Universita degli Studi Roma Tre); Vittoria Di Palma (USC); Anne Dunlop (University of Melbourne); Marzia Faietti (University of Bologna); María Judith Feliciano (independent scholar); Finbarr Barry Flood (NYU); Jonathan Hay (NYU); Christopher P. Poems in Steel Kees Gispens, 2002 The role of National Socialism in the development of German society remains a central question of historical inquiry. This study presents original answers by examining the politics of inventing, a crucial but long ignored problem at the intersection of the history of technology, legal, political, and business history. The analysis of conflicts over the rights of inventors and the meaning of inventing from the 1920s to the 1950s reveals a deep chasm, reaching back to the late nineteenth century, between the forces of capital and big business on one hand and the exponents of intellectual capital - inventors, engineers, industrial scientists - on the other.
