U.S. History is designed to meet the scope and sequence requirements of most introductory courses. The text provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). U.S. History covers key forces that form the American experience, with particular attention to issues of race, class, and gender.

World History, Culture, and Geography ,1995 This resource book is designed to assist teachers in implementing California's history-social science framework at the 10th grade level. The models support implementation at the local level and may be used to plan topics and select resources for professional development and preservice education. This document provides a link between the framework's course descriptions and teachers' lesson plans by suggesting substantive resources and instructional strategies to be used in conjunction with textbooks and supplementary materials. The resource book is divided into eight units: (1) Unresolved Problems of the Modern World; (2) Connecting with Past Learnings: The Rise of Democratic Ideas; (3) The Industrial Revolution; (4) The Rise of Imperialism and Colonialism: A Case Study of India; (5) World War I and Its Consequences; (6) Totalitarianism in the Modern World: Nazi Germany and Stalinist Russia; (7) World War II: Its Causes and Consequences; and (8) Nationalism in the Contemporary World. Each unit contains references. (EH)

History Textbooks American Textbook Council,1994 Based on expert review and research, this book provides an innovative standard and guide to social studies textbooks used in kindergarten through 12th grade classrooms for content, style, and design. The standards provide a foundation for individuals to select satisfactory textbooks and to help educators and school boards in the adoption of instructional materials. Chapter 1 addresses the problems of textbook content and style. Chapter 2 discusses the vast business of social studies publishing and the increased complexity of textbook packaging with the movement away from state-level adoption of textbooks. Chapter 3 focuses on the content of social studies textbooks with a comparison of past and present textbooks, a discussion of revisionism and reality, and a look at religion in textbooks. Chapter 4 examines the style and story of textbooks and finds that although the content of past textbooks may be flawed, the prose is superior to recent textbooks. Ideas on narrative, readability, vocabulary, instructional design, history, and style provide ways for textbooks to improve. Chapter 5 addresses the issue of format and proposes clarity and simplicity in technical design of books. Chapter 6 provides an outline to review textbooks for content and style and instructional activities and teacher guidance materials for usefulness. Chapter 7 includes an annotated list of the major U.S. and world history textbooks. (CK)

While the structure and most of the topics remain largely the same as before, this Third Edition presents new lesson ideas in every chapter especially designed to help new teachers to address learning standards, to work in inclusive settings, and to promote literacy and the use of technology in social studies classrooms puts a heavier focus on what is important to know and why includes new essays on the politics of social studies education responds to opponents of project- or activity-based social studies instruction and multicultural education with a sharpened defense of both of these approaches throughout the book Intended as a text for undergraduate and graduate pre-service social studies methods

courses, this text is also useful for in-service training programs, as a reference for new social studies teachers, and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice.
