Joyriding in Riyadh Pascal Menoret, 2014-04-21 Based on four years of fieldwork, Joyriding in Riyadh explores the history and social fabric of Riyadh, and of Saudi Arabia, through youth culture, specifically joyriding.

Desert Kingdom Toby Craig Jones, 2011-03-15 Oil and water, and the science and technology used to harness them, have long been at the heart of political authority in Saudi Arabia. Oil's abundance, and the fantastic wealth it generated, has been a keystone in the political primacy of the kingdom's ruling family. The other bedrock element was water, whose importance was measured by its dearth. Over much of the twentieth century, it was through efforts to control and manage oil and water that the modern state of Saudi Arabia emerged. The central government's power over water, space, and people expanded steadily over time, enabled by increasing oil revenues. The operations of the Arabian American Oil Company proved critical to expansion and to achieving power over the environment. Political authority in Saudi Arabia took shape through global networks of oil, science, and expertise. And, where oil and water were central to the forging of Saudi authoritarianism, they were also instrumental in shaping politics on the ground. Nowhere was the impact more profound than in the oil-rich Eastern Province, where the politics of oil and water led to a yearning for national belonging and to calls for revolution. Saudi Arabia is traditionally viewed through the lenses of Islam, tribe, and the economics of oil. *Desert Kingdom* now provides an alternative history of environmental power and the making of the modern Saudi state. It demonstrates how vital the exploitation of nature and the roles of science and global experts were to the consolidation of political authority in the desert.

Urban Modernity in the Contemporary Gulf Roberto Fabbri, Sultan Sooud Al-Qassemi, 2021-09-27 *Urban Modernity in the Contemporary Gulf* offers a timely and engaging discussion on architectural production in the modernization era in the Arabian Peninsula. Focusing on the 20th century as a starting point, the book explores the display of transnational architectural practices resulting in different notions of locality, cosmopolitanism, and modernity. Contextually, with an eye on the present, the book reflects on the initiatives that recently re-engaged with the once *ville moderne* which, meanwhile, lost its pivotal function and meaning. A city within a bigger city, the urban fabric produced during the modernization era has the potential to narrate the social growth, East-West dynamics, and citizens' memories of the recent past. Reading obsolescence as an opportunity, the book looks into this topic from a cross-country perspective. It maps, reads and analyses the notion of modern heritage in relation to the contemporary city and looks beyond physical transformations to embrace cultural

practices and strategies of urban re-appropriation. It interrogates the value of modern architecture in the non-West, examining how academic research is expanding the debate on Gulf urbanism, and describes how practices of reuse could foster rethinking neglected areas, also addressing land consumption in the GCC. Presenting a diverse and geographically inclusive authorship, which combines established and up-and-coming researchers in the field, this is an important reference for academics and upper-level students interested in heritage studies, post-colonial urbanism, and architecture in the non-West. New Islamic Urbanism Stefan Maneval ,2019-12-04 Since the dawn of the oil era, cities in Saudi Arabia have witnessed rapid growth and profound societal changes. As a response to foreign architectural solutions and the increasing popularity of Western lifestyles, a distinct style of architecture and urban planning has emerged. Characterised by an emphasis on privacy, expressed through high enclosures, gates, blinds, and tinted windows, ‘New Islamic Urbanism’ constitutes for some an important element of piety. For others, it enables alternative ways of life, indulgence in banned social practices, and the formation of both publics and counterpublics. Tracing the emergence of ‘New Islamic Urbanism’, this book sheds light on the changing conceptions of public and private space, in the twentieth and early twenty-first centuries, in the Saudi city of Jeddah. It challenges the widespread assumption that the public sphere is exclusively male in Muslim contexts such as Saudi Arabia, where women’s public visibility is limited by the veil and strict rules of gender segregation. Showing that the rigid segregation regime for which the country is known serves to constrain the movements of men and women alike, Stefan Maneval provides a nuanced account of the negotiation of public and private spaces in Saudi Arabia.

The New Arab Urban Harvey Molotch,Davide Ponzini,2019-02-05 Cities of the Arabian Peninsula reveal contradictions of contemporary urbanization The fast-growing cities of the Persian Gulf are, whatever else they may be, indisputably sensational. The world’s tallest building is in Dubai; the 2022 World Cup in soccer will be played in fantastic Qatar facilities; Saudi Arabia is building five new cities from scratch; the Louvre, the Guggenheim and the Sorbonne, as well as many American and European universities, all have handsome outposts and campuses in the region. Such initiatives bespeak strategies to diversify economies and pursue grand ambitions across the Earth. Shining special light on Dubai, Abu Dhabi, and Doha—where the dynamics of extreme urbanization are so strongly evident—the authors of *The New Arab Urban* trace what happens when money is plentiful, regulation weak, and labor conditions severe. Just how do authorities in such settings reconcile goals of oft-claimed civic betterment with hyper-segregation and radical inequality? How do they align cosmopolitan sensibilities with authoritarian rule? How do these elite custodians arrange tactical alliances to protect particular forms of social stratification and political control? What sense can be made of their massive investment for environmental breakthrough in the midst of world-class ecological mayhem? To address such questions, this book’s

contributors place the new Arab urban in wider contexts of trade, technology, and design. Drawn from across disciplines and diverse home countries, they investigate how these cities import projects, plans and structures from the outside, but also how, increasingly, Gulf-originated initiatives disseminate to cities far afield. Brought together by noted scholars, sociologist Harvey Molotch and urban analyst Davide Ponzini, this timely volume adds to our understanding of the modern Arab metropolis—as well as of cities more generally. Gulf cities display development patterns that, however unanticipated in the standard paradigms of urban scholarship, now impact the world.

The Saudi Enigma Pascal Ménoret, 2005-05 Despite speculation about Saudi interests and loyalties that have been directed at the country since 9/11, Arabia remains the key US ally in the Arab Middle East. Menoret debunks the facile notions about Saudi society, and focuses our attention on present political and economic realities that cannot be reduced to essentialist tribalist ideas. Menoret illustrates the emerging autonomous--and Islamic--manifestations of Saudi national identity, fiercely reformist rather than medieval, complex and varied rather than merely a justification or support for the rule of the al-Saud royal family. Underlying this account is a sophisticated economic history of the Saudi state, from the eighteenth century to the present day, which details all the alliances and manoeuvres that have brought the country and its rulers to their current precarious position.

The City Reader Richard T. LeGates, Frederic Stout, 2015-07-16 The sixth edition of the highly successful *The City Reader* juxtaposes the very best classic and contemporary writings on the city to provide the comprehensive mapping of the terrain of Urban Studies and Planning old and new. *The City Reader* is the anchor volume in the Routledge Urban Reader Series and is now integrated with all ten other titles in the series. This edition has been extensively updated and expanded to reflect the latest thinking in each of the disciplinary areas included and in topical areas such as compact cities, urban history, place making, sustainable urban development, globalization, cities and climate change, the world city network, the impact of technology on cities, resilient cities, cities in Africa and the Middle East, and urban theory. The new edition places greater emphasis on cities in the developing world, globalization and the global city system of the future. The plate sections have been revised and updated. Sixty generous selections are included: forty-four from the fifth edition, and sixteen new selections, including three newly written exclusively for *The City Reader*. The sixth edition keeps classic writings by authors such as Ebenezer Howard, Ernest W. Burgess, LeCorbusier, Lewis Mumford, Jane Jacobs, and Louis Wirth, as well as the best contemporary writings of, among others, Peter Hall, Manuel Castells, David Harvey, Saskia Sassen, and Kenneth Jackson. In addition to newly commissioned selections by Yasser Elshestawy, Peter Taylor, and Lawrence Vale, new selections in the sixth edition include writings by Aristotle, Peter Calthorpe, Alberto Camarillo, Filip DeBoech, Edward Glaeser, David Owen, Henri Pirenne, The Project for Public Spaces, Jonas Rabinovich and Joseph Lietman, Doug Saunders, and Bish Sanyal. The anthology features general and section introductions as well as individual introductions to the selected articles introducing

the authors, providing context, relating the selection to other selection, and providing a bibliography for further study. The sixth edition includes fifty plates in four plate sections, substantially revised from the fifth edition.

The Son King Madawi Al-Rasheed,2021-02-01 In 2018, journalist Jamal Khashoggi was murdered by Saudi regime operatives, shocking the international community and tarnishing the reputation of Muhammad bin Salman, the kingdom's young, reformist crown prince. Domestically, bin Salman's reforms have proven divisive, and his adoption of populist nationalism and fierce repression of diverse critical voices--religious scholars, feminists and dissident youth--have failed to silence a vibrant and well-connected Saudi society. Madawi Al-Rasheed lays bare the world of repression behind the crown prince's reforms. She dissects the Saudi regime's propaganda and progressive new image, while also dismissing Orientalist views that despotism is the only pathway to stable governance in the Middle East. Charting old and new challenges to the fragile Saudi nation from the kingdom's very inception, this blistering book exposes the dangerous contradictions at the heart of the Son King's Saudi Arabia.

Islam after Liberalism Faisal Devji,Zaheer Kazmi,2017-12-01 Forged in the age of empire, the relationship between Islam and liberalism has taken on a sense of urgency today, when global conflicts are seen as pitting one against the other. More than describing a civilizational fault-line between the Muslim world and the West, however, this relationship also offers the potential for consensus and the possibility of moral and political engagement or compatibility. The existence or extent of this correspondence tends to preoccupy academic as much as popular accounts of such a relationship. This volume looks however to the way in which Muslim politics and society are defined beyond and indeed after it. Reappraising the 'first wave' of Islamic liberalism during the nineteenth century, the book describes the long and intertwined histories of these categories across a large geographical expanse. By drawing upon the contributions of scholars from a variety of disciplines -- including philosophy, theology, sociology, politics and history -- it explores how liberalism has been criticised and refashioned by Muslim thinkers and movements, to assume a reality beyond the abstractions that define its compatibility with Islam.

The Oxford Handbook of Contemporary Middle Eastern and North African History Jens Hanssen,Amal N. Ghazal,2020-11-30 The Oxford Handbook of Contemporary Middle-Eastern and North African History critically examines the defining processes and structures of historical developments in North Africa and the Middle East over the past two centuries. The Handbook pays particular attention to countries that have leapt out of the political shadows of dominant and better-studied neighbours in the course of the unfolding uprisings in the Middle East and North Africa. These dramatic and interconnected developments have exposed the dearth of informative analysis available in surveys and textbooks, particularly on Tunisia, Libya, Yemen, Bahrain and Syria.

The Fragmentary City Andrew M. Gardner,2024-05-15 As Andrew M. Gardner explains in The Fragmentary City, in Qatar and elsewhere on the Arabian Peninsula, nearly nine out of every ten residents are foreign noncitizens. Many of these

foreigners reside in the cities that have arisen in Qatar and neighboring states. The book provides an overview of the Gulf migration system with its diverse migrant experiences. Gardner focuses on the ways that demography and global mobility have shaped the city of Doha and the urban characteristics of the Arabian Peninsula in general. Building on those migrant experiences, the book turns to the spatial politics of the modern Arabian city, exploring who is placed where in the city and how this social landscape came into historical existence. The author reflects on what we might learn from these cities and the societies that inhabit them. In *The Fragmentary City*, Andrew M. Gardner frames the contemporary cities of the Arabian Peninsula not as poor imitations of Western urban modernity, but instead as cities on the frontiers of a global, neoliberal, and increasingly urban future.

Pop Culture in North Africa and the Middle East Andrew Hammond, 2017-05-22 Ideal for students and general readers, this single-volume work serves as a ready-reference guide to pop culture in countries in North Africa and the Middle East, covering subjects ranging from the latest young adult book craze in Egypt to the hottest movies in Saudi Arabia. Part of the new Pop Culture around the World series, this volume focuses on countries in North Africa and the Middle East, including Algeria, Egypt, Iran, Iraq, Israel, Jordan, Kuwait, Lebanon, Libya, Morocco, Saudi Arabia, Syria, the United Arab Emirates, and more. The book enables students to examine the stars, idols, and fads of other countries and provides them with an understanding of the globalization of pop culture. An introduction provides readers with important contextual information about pop culture in North Africa and the Middle East, such as how the United States has influenced movies, music, and the Internet; how Islamic traditions may clash with certain aspects of pop culture; and how pop culture has come to be over the years. Readers will learn about a breadth of topics, including music, contemporary literature, movies, television and radio, the Internet, sports, video games, and fashion. There are also entries examining topics like key musicians, songs, books, actors and actresses, movies and television shows, popular websites, top athletes, games, and clothing fads and designers, allowing readers to gain a broad understanding of each topic, supported by specific examples. An ideal resource for students, the book provides Further Readings at the end of each entry; sidebars that appear throughout the text, providing additional anecdotal information; appendices of Top Tens that look at the top-10 songs, movies, books, and much more in the region; and a bibliography.

Politics in the Crevices Sarah El-Kazaz, 2023-09-29 In *Politics in the Crevices*, Sarah El-Kazaz takes readers into the world of urban planning and design practices in Istanbul and Cairo. In this transnational ethnography of neighborhoods undergoing contested rapid transformations, she reveals how the battle for housing has shifted away from traditional political arenas onto private crevices of the city. She outlines how multiple actors—from highly capitalized international NGOs and corporations to city dwellers, bureaucrats, and planning experts—use careful urban design to empower conflicting agendas, whether manipulating property markets to protect affordable housing or corner luxury real estate. El-Kazaz shows that such

contemporary politicizations of urban design stem from unresolved struggles at the heart of messy transitions from the welfare state to neoliberalism, which have shifted the politics of redistribution from contested political arenas to design practices operating within market logics, ultimately relocating political struggles onto the city's most intimate crevices. In so doing, she raises critical questions about the role of market reforms in redistributing resources and challenges readers to rethink neoliberalism and the fundamental ways it shapes cities and politics.

Mobility, Mobilization, and Counter/Insurgency Daniel E Agbibo, 2022-02-15 Mobility as the driving force of armed conflict

Spaceship in the Desert Gökçe Günel, 2019-02-14 In 2006 Abu Dhabi launched an ambitious project to construct the world's first zero-carbon city: Masdar City. In *Spaceship in the Desert* Gökçe Günel examines the development and construction of Masdar City's renewable energy and clean technology infrastructures, providing an illuminating portrait of an international group of engineers, designers, and students who attempted to build a post-oil future in Abu Dhabi. While many of Masdar's initiatives—such as developing a new energy currency and a driverless rapid transit network—have stalled or not met expectations, Günel analyzes how these initiatives contributed to rendering the future a thinly disguised version of the fossil-fueled present. *Spaceship in the Desert* tells the story of Masdar, at once a “utopia” sponsored by the Emirati government, and a well-resourced company involving different actors who participated in the project, each with their own agendas and desires.

From Sheikhs to Sultanism Christopher M. Davidson, 2022-01-15 Muhammad bin Salman Al-Saud and Muhammad bin Zayed Al-Nahyan, the respective princely strongmen of Saudi Arabia and the UAE, have torn up the old rules. They have spurred game-changing economic master plans, presided over vast anti-corruption crackdowns, tackled entrenched religious forces, and overseen the mass arrest of critics. In parallel, they also appear to have replaced the old 'sheikhly' consensus systems of their predecessors with something more autocratic, more personalistic, and perhaps even analytically distinct. These are the two wealthiest and most populous Gulf monarchies, and increasingly important global powers--Saudi Arabia is a G20 member, and the UAE will be the host of the World Expo in 2021-2022. Such sweeping changes to their statecraft and authority structures could well end up having a direct impact, for better or worse, on policies, economies and individual lives all around the world. Christopher M. Davidson tests the hypothesis that Saudi Arabia and the UAE are now effectively contemporary or even 'advanced' sultanates, and situates these influential states within an international model of autocratic authoritarianism. Drawing on a range of primary sources, including new interviews and surveys, *From Sheikhs to Sultanism* puts forward an original, empirically grounded interpretation of the rise of both MBS and MBZ.

Political Science Research in the Middle East and North Africa Janine A. Clark, Francesco Cavatorta, 2018-07-20 In conducting political science research today, one's methodology is of paramount concern. Yet, despite the obvious chasm

between theory and practice that all scholars experience in the field, there are no specific guidebooks on meeting the methodological and ethical challenges that fieldwork presents. *Political Science Research in the Middle East and North Africa* helps fill this vacuum, focusing specifically on doing research in the one of the most important regions in contemporary world politics. Janine A. Clark and Francesco Cavatorta have gathered together a large and diverse group of researchers who study the region and focus on methodological lessons learned from their first hand experiences of employing a variety of research methods while conducting fieldwork. The contributors also look at the challenges of conducting field research in a variety of contexts, such as in areas of violence, and using research methods such as interviewing and ethnography. This volume will therefore be an invaluable companion book to more standard methods books and a useful tool, not just for Middle East scholars, but for all researchers conducting research in complex settings.

The Economy of Saudi Arabia in the 21st Century John Sfakianakis, 2024-06-28 This book is about Saudi Arabia's efforts to overhaul its economy and the numerous prospects and challenges it faces in doing so. As one of the world's leading oil producers, the outcomes of the most ambitious wave of reforms Saudi Arabia has ever undertaken will provide valuable lessons not only for the kingdom itself but also for other oil-dependent and resource-based economies. Since 2016, Saudi Arabia has embarked on an unparalleled economic - if not social and political - transformation project with an ultimate aim of diversifying away from oil. New sources of growth such as tourism, industry, and entertainment have been identified, but it remains to be seen whether these will be enough to sustain the economy in the post-oil era. Reforms, including lowering energy subsidies, instituting VAT, and introducing indirect taxes on labor and businesses, have already produced notable

results. Looking ahead, the economy requires rigorous and continuous processes of severe competition amongst its private sector participants as well as strong institutions. It also requires creative destruction to be allowed to run its course within the wider economy. The economic reform experiment undertaken by Saudi Arabia remains the most sweeping among emerging market economies - and certainly in the entire Middle East. The changes are all encompassing and involve a complex redrawing of the political, economic, religious, and social map.

The Middle East Ellen Lust, 2016-04-25 In the Fourteenth Edition of *The Middle East*, Ellen Lust brings important new coverage to this comprehensive, balanced, and superbly researched text. All country chapters now address domestic and regional conflict more explicitly, and all tables, figures, boxes, and maps have been fully updated with the most recent data and information.
