Wilt on High Tom Sharpe, 2011-05-26 Wilt is back - in form, and in a good deal of trouble. Henry Wilt is still teaching at the Fenland Tech, attempting to drill English into plasterers, dozing through tedious committee meetings and occasionally getting mildly plastered in 'The Pig in a Poke' with one of his few bearable colleagues. But the even tenor of his days is rudely interrupted when the shadow of drug dealing flickers across the Tech. Suddenly Wilt becomes the target of suspicion. His colleagues believe him to be responsible for triggering a departmental inquiry, and his old adversary Inspector Flint, knowing that he's guilty of something, sees a chance to settle a number of scores. What starts with an accusation of voyeurism in the staff lavatory (of the wrong gender to boot) leads, more or less directly, to a massive confrontation at a nearby US airbase with the forces of law and order on both sides and Wilt in his usual place - in the middle.

You Suck Christopher Moore, 2007-01-16 Waking up after a fantastic night only to discover that his girlfriend is a vampire and has transformed him into one, C. Thomas Flood adapts to his new powers while dealing with a dangerous faction of bloodsuckers trying to kill off all other vampires.

The Emotional Life of Your Brain Sharon Begley, Richard Davidson, 2012-03-01 This groundbreaking book by a pioneer in neuroscience brings a new understanding of our emotions - why each of us responds so differently to the same life events and what we can do to change and improve our emotional lives. If you believe most self-help books, you would probably assume that we are all affected in the same way by events like grief or falling in love or being jilted and that only one process can help us handle them successfully. From thirty years of studying brain chemistry, Davidson shows just why and how we are all so different. Just as we all have our own DNA, so we each have our own emotional 'style' depending on our individual levels of dimensions like resilience, attention and self-awareness. Helping us to recognise our own emotional style, Davidson also shows how our brain patterns can change over our lives - and, through his fascinating experiments, what we can do to improve our emotional responses through, for example, meditation. Deepening our understanding of the mind-body connection - as well as conditions like autism and depression - Davidson stretches beyond mainstream psychology and neuroscience and expands our view of what it means to be human.

Put Out More Flags Evelyn Waugh, 2012-12-11 Upper-class scoundrel Basil Seal, mad, bad, and dangerous to know, creates havoc wherever he goes, much to the despair of the three women in his life—his sister, his mother, and his mistress. When Neville Chamberlain declares war on Germany, it seems the perfect opportunity for more action and adventure. So Basil follows the call to arms and sets forth to enjoy his finest hour—as a war hero. Basil's instincts for self-preservation come to the fore as he insinuates himself into the Ministry of Information and a little-known section of Military Security. With Europe frozen in the phoney war, when will Basil's big chance to fight finally arrive?

Stop Press Michael Innes, 2008-09-23 Famous writer, Richard Eliot, has written numerous detective novels, featuring 'The Spider', a daring, clever criminal in earlier books, and an equally canny private investigator in later ones. But when he comes to life - first to burgle an odd neighbour, then to harass the Eliot family, and finally to attend his own 'birthday party' - Inspector John Appleby is sent to investigate.

La Lucha for Cuba Miguel A. De La Torre, 2003-10-10 This, the first major study of popular religion in Miami's community of exiled Cubans, is outstanding. De La Torre captures the intimacy and flavor of a spiritual movement that crosses moral and theological lines. It's bound to upset some for its frank conclusions; but all great books go against the inherited grain in some way.—Luis León, author of *La Llorona's Children: Religion, Life, and Death in the U.S.-Mexican Borderlands* A daring and careful exposé of the political and religious right-wing discourse circulating among Cuban exiles. In this extremely important, courageous, and long-overdue project about cubanidad (Cubanness), De La Torre has created a historical marker in the effort to clear the way for a more democratic and spiritually compassionate world for Cuban Americans.—Laura Perez, Associate Professor of Ethnic Studies, University of California, Berkeley

Ambivalent Desires María Mercedes Andrade, 2011-04-01 *Ambivalent Desires: Representations of Modernity and Private Life in Colombia (1890s-1950s)* is a literary and cultural study of the reception of modernity in Colombia. Unlike previous studies of Latin American modernization, which have usually focused on the public aspect of the process, this book discusses the intersection between modernity and the private sphere. It analyzes canonical and non-canonical works that reflect the existing ambivalence toward the modernizing project being implemented in the country at the time, and it

discusses how the texts in question reinterpret, adapt, and even reject the ideology of modernity. The focus of the study is how the understanding of the relationship between modernity and private life relates to the project of constructing a modern nation, and the discontinuities and contradictions that appear in the process. The question of what modernity is, its implications for everyday life, and its desirability or undesirability as a new cultural paradigm were central issues in Colombian texts from the end of the nineteenth century through the first half of the twentieth. At stake was the definition of the nation's identity and the project of breaking away from the cultural patterns of the colonial past. Considering that the apparently peaceful process of modernization in Colombia was interrupted in the 1950s by the eruption of political violence across the country, this study situates itself on the eve of a crisis and asks how representations of modernity in texts from the period evidence the social fragmentation that may have led to it. The book begins with an analysis of the theme of the private collection in the work of JosZ Asunci-n Silva, and how it is used to propose a specific notion of personal and cultural identity. It continues with an analysis of the modernizing ideology of the popular magazine El GrOfico during the period of economic prosperity of the 1920s known as the 'Dance of the Millions,' focusing on the publication's advertisements and the section devoted to women and the home. Subsequently, the canonical writings of TomOs Rueda Vargas are analyzed in the context of the relation between autobiographical writing and public life, emphasizing the contradiction between the author's public liberalism and his private conservatism, and highlighting his critique of modern life. The works of previously neglected women writers Manuela Mallarino Isaacs, Juana SOnchez Lafaurie, and Fabiola Aguirre are studied in the context of women's relationship to modernity and their conflict between traditional roles that relegated them to the private sphere, and their desire to accept modern standards. The book concludes with an analysis of the novels of Ignacio G-mez DOvila, which have received scant attention to this date, as it discusses his critique of the upper classes' flight into the private and what the author sees as their alienation from a society on the verge of a crisis.

LSD, My Problem Child Albert Hofmann, 2017-09-27 This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann, Ph.D. He traces LSD's path from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition. In *LSD: My Problem Child*, we follow Dr. Hofmann's trek across Mexico to discover sacred plants related to LSD, and listen in as he corresponds with other notable figures about his remarkable discovery. Underlying it all is Dr. Hofmann's powerful conclusion that mystical experiences may be our planet's best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend the wonder, the mystery of the divine, in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people. More than sixty years after the birth of Albert Hofmann's problem child, his vision of its true potential is more relevant, and more needed, than ever.

The Nineteenth-Century German Lied Lorraine Gorrell, 2005-11-01 The development of the piano, together with changes

in culture and society, led to the transformation of song into a major musical genre. This study of the great lieder of 19th-century composers Schubert, Schumann, Brahms, and Hugo Wolf also includes lesser-known composers, such as Louis Spohr and Robert Franz, plus significant contributions from women composers and performers.

Feminism and History Joan Wallach Scott, 1996 The question of difference - between women and men and among women - is at the heart of feminist theory and the history of feminism. Feminists have long debated the meanings of sexual difference: is it an underlying truth of nature or the result of changing social belief? Are women the same as or different from men? *Feminism and History* argues that sexual difference, indeed that all forms of social differentiation, cannot be understood apart from history. It brings together the best critical articles available to analyze the ways in which differences among women and men have been produced. The articles range across many countries and time periods (from the Middle Ages to the present) and they include analyses of western and non-western experiences. There are discussions of race in the United States and in colonial contexts. A variety of theoretical approaches to the question of difference is included; but in all cases, difference is the focus of the historian's analysis. The analytic focus on difference distinguishes this book from other collections of women's history. It will be fascinating and essential reading for students and teachers of history, women's studies, gender studies, cultural studies, queer theory, and feminist theory.

Coloniality of Diasporas Yolanda Martínez-San Miguel, 2014-07-24 Focusing on piracy in the seventeenth century, filibustering in the nineteenth century, intracolonial migrations in the 1930s, metropolitan racializations in the 1950s and 1960s, and feminist redefinitions of creolization and exile from the 1940s to the 1990s, this book redefines the Caribbean beyond the postcolonial debate.

Negotiating Respect Brendan Jamal Thornton, 2020-01-06 Caribbean Studies Association Barbara T. Christian Literary Award *Negotiating Respect* is an ethnographically rich investigation of Pentecostal Christianity—the Caribbean's fastest growing religious movement—in the Dominican Republic. Based on fieldwork in a barrio of Villa Altagracia, Brendan Jamal Thornton examines the everyday practices of Pentecostal community members and the complex ways in which they negotiate legitimacy, recognition, and spiritual authority within the context of religious pluralism and Catholic cultural supremacy. Probing gender, faith, and identity from an anthropological perspective, he considers in detail the lives of young male churchgoers and their struggles with conversion and life in the streets. Thornton shows that conversion offers both spiritual and practical social value because it provides a strategic avenue for prestige and an acceptable way to transcend personal history. Through an exploration of the church and its relationship to barrio institutions like youth gangs and Dominican vodú, he further draws out the meaningful nuances of lived religion providing new insights into the social organization of belief and

the significance of Pentecostal growth and popularity globally. The result is a fresh perspective on religious pluralism and contemporary religious and cultural change. A volume in the series Latin American and Caribbean Arts and Culture, funded by the Andrew W. Mellon Foundation
