Mission-Oriented Finance for Innovation Mariana Mazzucato, Caetano C.R. Penna, 2015-03-06 The role of the state in modern capitalism has gone beyond fixing market failures. Those regions and countries that have succeeded in achieving “smart” innovation-led growth have benefited from long-term visionary “mission-oriented” policies—from putting a man on the moon to tackling societal challenges such as climate change and the wellbeing of an ageing population. This book collects the experience of different types of mission-oriented public institutions around the world, together with thought-provoking chapters from leading economists. As the global debate on deficits and debt levels continues to roar, the book offers a challenge to the conventional narrative—asking what kinds of visionary fiscal policies we need to help promote smart” innovation-led, inclusive, and sustainable growth.

Open Access Peter Suber, 2012-07-20 A concise introduction to the basics of open access, describing what it is (and isn't) and showing that it is easy, fast, inexpensive, legal, and beneficial. The Internet lets us share perfect copies of our work with a worldwide audience at virtually no cost. We take advantage of this revolutionary opportunity when we make our work “open access”: digital, online, free of charge, and free of most copyright and licensing restrictions. Open access is made possible by the Internet and copyright-holder consent, and many authors, musicians, filmmakers, and other creators who depend on royalties are understandably unwilling to give their consent. But for 350 years, scholars have written peer-reviewed journal articles for impact, not for money, and are free to consent to open access without losing revenue. In this concise introduction, Peter Suber tells us what open access is and isn't, how it benefits authors and readers of research, how we pay for it, how it avoids copyright problems, how it has moved from the periphery to the mainstream, and what its future may hold. Distilling a decade of Suber's influential writing and thinking about open access, this is the indispensable book on the subject for researchers, librarians, administrators, funders, publishers, and policy makers.

The Structuring of Organizations Henry Mintzberg, 2009 Synthesizes the empirical literature on organizational structuring to answer the question of how organizations structure themselves --how they resolve needed coordination and division of labor. Organizational structuring is defined as the sum total of the ways in which an organization divides and coordinates its labor into distinct tasks. Further analysis of the research literature is needed in order to build a conceptual framework that will fill in the significant gap left by not connecting a description of structure to its context: how an organization actually functions. The results of the synthesis are five basic configurations (the Simple Structure, the Machine Bureaucracy, the Professional Bureaucracy, the Divisionalized Form, and the Adhocracy) that serve as the fundamental elements of structure in an organization. Five basic parts of the contemporary organization (the operating core, the strategic apex, the middle line, the technostructure, and the support staff), and five theories of how it functions (i.e., as a system characterized by formal authority, regulated flows, informal communication, work constellations, and ad hoc decision processes) are theorized. Organizations function in complex and varying ways, due to differing flows -including flows of authority, work material, information, and decision processes. These flows depend on the age, size, and environment of the organization; additionally, technology plays a key role because of its importance in structuring the operating core. Finally, design parameters are described - based on the above five basic parts and five theories - that are used as a means of coordination and division of labor in designing organizational structures, in order to establish stable patterns of behavior. (CJC).

Good Governance and Modern International Financial Institutions, 2019-07-01 This first volume of the AIIB Yearbook of International Law (AYIL), edited by Peter Quayle and Xuan Gao, is based upon the inaugural 2017 AIIB Legal Conference, both titled, Good Governance and Modern International Financial Institutions (IFIs). Following a Preface by the General Counsel of the AIIB and General Editor of AYIL, Gerard Sanders, and an Introduction by the Editors, this volume of AYIL draws upon expertise from other IFIs, international law and governance practitioners, and eminent academics. It is divided into three parts to reflect a series of dimensions to the good governance of IFIs. Firstly, the role of the membership of IFIs as expressed through their executive governance organs. Second, the legal basis of governance of IFIs. And third, the interaction around governance between IFIs and external stakeholders. This volume concludes with the text of the 2017 AIIB Law Lecture, delivered by the United Nations Under-Secretary-General for Legal Affairs and Legal Counsel, Miguel de Serpa Soares on the subject of 'The Necessity of Cooperation between International Organizations' and a summary report on the proceedings of the 2017 AIIB Legal Conference. The first volume of AYIL was launched at the Annual Meeting of the Board of Governors of the AIIB in Mumbai, India, June 2018.

Cephalopod Culture José Iglesias, Lidia Fuentes, Roger Villanueva, 2014-03-26 Cephalopod Culture is the first compilation of research on the culture of cephalopods. It describes experiences of culturing different groups of cephalopods: nautilus, sepioids (*Sepia officinalis*, *Sepia pharaonis*, *Sepiella inermis*, *Sepiella japonica* *Euprymna hyllebergi*, *Euprymna tasmanica*), squids (*Loligo vulgaris*, *Doryteuthis opalescens*, *Sepioteuthis lessoniana*) and octopods (*Amphioctopus aegina*, *Enteroctopus megalocyathus*, *Octopus maya*, *Octopus mimus*, *Octopus minor*, *Octopus vulgaris*, *Robsonella fontaniana*). It also includes the main conclusions which have been drawn from the research and the future challenges in this field. This makes this book not only an ideal introduction to cephalopod culture, but also a valuable resource for those already involved in this topic.

Financial Markets and the Macroeconomy Carl Chiarella, Peter Flaschel, Reiner Franke, Willi Semmler, 2009-06-02 This important new book from a group of Keynesian, but nonetheless technically-oriented economists explores one of the dominant paradigms in financial economics: the 'intertemporal general equilibrium approach'.

The Managed Heart Arlie Russell Hochschild, 2012-03-31 In private life, we try to induce or suppress love, envy, and anger through deep acting or emotion work, just as we manage our outer expressions of feeling through surface acting. In trying to bridge a gap between what we feel and what we ought to feel, we take guidance from feeling rules about what is owing to others in a given situation. Based on our private mutual understandings of feeling rules, we make a gift exchange of acts of emotion management. We bow to each other not simply from the waist, but from the heart. But what occurs when emotion work, feeling rules, and the gift of exchange are introduced into the public world of work? In search of the answer, Arlie Russell Hochschild closely examines two groups of public-contact workers: flight attendants and bill collectors. The flight attendant's job is to deliver a service and create further demand for it, to enhance the status of the customer and be nicer than natural. The bill collector's job is to collect on the service, and if necessary, to deflate the status of the customer by being nastier than natural. Between these extremes, roughly one-third of American men and one-half of American women hold jobs that call for substantial emotional labor. In many of these jobs, they are trained to accept feeling rules and techniques of emotion management that serve the company's commercial purpose. Just as we have seldom recognized or understood emotional labor, we have not appreciated its cost to those who do it for a living. Like a physical laborer who

becomes estranged from what he or she makes, an emotional laborer, such as a flight attendant, can become estranged not only from her own expressions of feeling (her smile is not her smile), but also from what she actually feels (her managed friendliness). This estrangement, though a valuable defense against stress, is also an important occupational hazard, because it is through our feelings that we are connected with those around us. On the basis of this book, Hochschild was featured in *Key Sociological Thinkers*, edited by Rob Stones. This book was also the winner of the Charles Cooley Award in 1983, awarded by the American Sociological Association and received an honorable mention for the C. Wright Mills Award.

Assessment of Surface Ship Maintenance Requirements Robert Button, Bradley Dean Martin, Jerry M. Sollinger, Abraham Tidwell, 2015 The Department of Defense is likely to face years of declining resources as the U.S. government grapples with fiscal challenges. These challenges affect every account, including those associated with surface ship maintenance and operations. At the same time, there has been widespread concern that surface ship materiel readiness is declining due to a high pace of operations and a sense that there have been many instances of deferred maintenance. The need to balance fiscal reality and a continued need for ready ships is likely to be an ongoing challenge. At the request of the Assessment Division of the Office of the Chief of Naval Operations, this report: (1) determines the impact on long-term fleet readiness, Operational Availability (Ao), and Expected Service Life (ESL) caused by near-term reductions in Operations and Maintenance (O&M) accounts; (2) recommends potential strategies to minimize negative impacts to Ao and ESL and maintain the largest, most capable fleet possible; (3) develops a maintenance requirement concept, per ship class, that supports ESL, but allows for some risk within the maintenance strategy; and (4) defines the risks to Ao and ESL resulting from the new requirement. The methodology could be applicable to multiple ship classes.
