Strategic Marketing: Planning and Control Graeme Drummond,John Ensor,Ruth Ashford,2007-06-01 Strategic Marketing: planning and control covers contemporary issues by exploring current developments in marketing theory and practice including the concept of a market-led orientation and a resource/asset-based approach to internal analysis and planning. The text provides a synthesis of key strategic marketing concepts in a concise and comprehensive way, and is tightly written to accommodate the reading time pressures on students. The material is highly exam focused and has been class tested and refined. Completely revised and updated, the second edition of Strategic Marketing: planning and control includes chapters on 'competitive intelligence', 'strategy formulation' and 'strategic implementation'. The final chapter, featuring mini case studies, has been thoroughly revised with new and up to date case material.

Strategic Business Diagnostic Tools - Theory and Practice Mike Morrison,2013-07-29 SWOT, PESTLE & PRIMO-F analysis are amongst the most commonly misused tools in business. This book sets out the myths and practical applications of these and other diagnostic approaches in a robust but practical way.

Risk and Safety Management in the Leisure, Events, Tourism and Sports Industries Mark Piekarz,Ian Jenkins,Peter Mills,2015-09-02 The management of risk and safety is not simply a matter of trying to remove risks, but is necessary and vital to these industries. Sensible risk management is concerned with making the most of the positive opportunities or reducing the negative risks. This book shows how the absence of explicit risk practices is not necessarily an absence of risk management, and how many existing operational and strategic practices can be understood as part of a process of risk and safety management. Its main objective is to develop greater clarity in the communication of risks and the development of safety programmes, illustrating how organisations can use a single language of risk, relevant for all levels of management and areas of operation.

CIMA E3 BPP Learning Media, 2012-08-01 CIMA offers a business qualification with a finance focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in business, the highest proportion of any worldwide accountancy body. Paper E3 'Enterprise Strategy' is a wide-ranging exam that includes aspects of strategic analysis, choice and implementation. To pass, candidates need both technical knowledge and the ability to apply their knowledge to specific scenarios. The syllabus is split into four areas: * Interacting with the Competitive Environment (20%) * Change Management (20%) * Evaluation of Strategic Options (30%) * Implementation of Strategic Plans (30%) The first section explores the impact and influence of an organisation's environment on its strategy. An organisation needs to take account of its environmental context as well as its own internal capabilities when assessing the strategic options available to it. Having identified these options, it then has to evaluate them to decide which is the most appropriate to pursue. The E3 syllabus recognises that implementing strategic plans involves managing change, and 20% of the syllabus is now devoted to issues involved in managing the change process. Change Management has not previously been examined at Strategic Level in the CIMA exams. The final section of the syllabus looks at the ways organisations control and measure the performance of the strategies they have implemented. The E3 Study Text provides you with comprehensive

coverage of the principles of business strategy and how they can be applied to design and implement enterprise strategies. The Text also offers a range of short case studies which illustrate how business strategy ideas are applied in the real world. In the E3 exam, your ability to apply knowledge to a scenario is as important as pure knowledge, but it is still crucial to have a sound understanding of the key terms and ideas. The 'key terms' feature in the text will help you identify these key terms, while the 'section summaries' provide a convenient overview of each section of the text."e;

Strategic Sport Communication W. Timothy Coombs, Jennifer L. Harker, 2021-09-15 Authors Coombs and Harker provide step-by-step guidance on how the strategic communication process—an integration of marketing communication, public relations, and advertising—can be applied to sports communication for individual athletes, teams, and leagues. The book is founded on the premise that the strategic communication process in sport communication is grounded in understanding the fans and sources of revenue. Looking at sports globally, it offers readers the traditional multi-step, linear approach to strategic communication message development along with the transmedia narrative transportation method, a non-linear approach that centers on narratives to engage target audiences and urge them to contribute their own material to messaging. With case studies and practical examples, it also highlights additional issues such as race and gender, social media, ethics, and athlete health. It is an ideal text for undergraduate and graduate courses in public relations or strategic communication and sport communication. An online instructor's manual accompanies the text, including lecture slides; a sample strategic sports communication plan; a test bank; links to key web sites that discuss sports and sports communication concerns; links to case studies with class discussion prompts; sample assignments; a sample course syllabus; and suggestions for further reading.
