My Revision Notes: AQA AS/A-level History: The Making of Modern Britain, 1951-2007 Peter Clements, 2017-05-02 Exam Board: AQA Level: AS/A-level Subject: History First Teaching: September 2015 First Exam: June 2016 Target success in AQA AS/A-level History with this proven formula for effective, structured revision; key content coverage is combined with exam preparation activities and exam-style questions to create a revision guide that students can rely on to review, strengthen and test their knowledge. - Enables students to plan and manage a successful revision programme using the topic-by-topic planner - Consolidates knowledge with clear and focused content coverage, organised into easy-to-revise chunks - Encourages active revision by closely combining historical content with related activities - Helps students build, practise and enhance their exam skills as they progress through activities set at three different levels - Improves exam technique through exam-style questions with sample answers and commentary from expert authors and teachers - Boosts historical knowledge with a useful glossary and timeline

The Good Research Guide Martyn Denscombe, 2014-08-01 The Good Research Guide provides practical and straightforward guidance for those who need to conduct small-scale research projects as part of their undergraduate, postgraduate or professional studies, covering all the major issues and concerns from start to finish. This brand new 5th edition is thoroughly updated throughout and includes developments in research such as the use of social media, internet research and online surveys.

RTI Assessment Essentials for Struggling Learners John J. Hoover, 2009-01-13 This book uses a practical approach to early intervention for struggling learners, while keeping in mind the cultural and linguistic considerations for English language learners. Applying the RTI strategies in this book takes the guesswork out of educating students and reduces referrals to special education due to lack of instruction. —Robert Raymond, Senior School Improvement Instruction Specialist Office of Special Education Initiatives, New York City Department of Education Assess students accurately to make informed instructional and eligibility decisions! Effective and ongoing assessment processes are crucial for making important decisions about the education of at-risk and struggling students. This practical book presents K-12 educators with a comprehensive overview of the three primary types of assessment within multitiered Response to Intervention (RTI) models: universal screening, progress monitoring, and diagnostic assessment for special education. This resource establishes the foundation

for assessment in RTI and provides practical suggestions for implementing universal screening and progress monitoring to make informed instructional decisions. The author identifies the role of RTI in determining student eligibility for special education services and discusses effective assessment decision-making processes, including roles and responsibilities of different team members. This book also: Provides detailed coverage of specific assessment methods and practices, including Curriculum-Based Measurement Addresses important topics related to RTI, including fidelity of implementation Presents RTI assessment needs of culturally and linguistically diverse learners Includes tables, figures, and reproducible forms and PowerPoint slides to facilitate training and implementation RTI Assessment Essentials for Struggling Learners is a valuable guide for members of RTI teams looking to expand their expertise in meeting the needs of all students.

Advanced Statistical Methods for the Analysis of Large Data-Sets Agostino Di Ciaccio, Mauro Coli, Jose Miguel Angulo Ibanez, 2012-03-05 The theme of the meeting was “Statistical Methods for the Analysis of Large Data-Sets”. In recent years there has been increasing interest in this subject; in fact a huge quantity of information is often available but standard statistical techniques are usually not well suited to managing this kind of data. The conference serves as an important meeting point for European researchers working on this topic and a number of European statistical societies participated in the organization of the event. The book includes 45 papers from a selection of the 156 papers accepted for presentation and discussed at the conference on “Advanced Statistical Methods for the Analysis of Large Data-sets.”

My Revision Notes: Edexcel AS/A-level History South Africa, 1948–94: from apartheid state to 'rainbow nation' Peter Clements, 2018-04-09 Target success in Edexcel AS/A-level History with this proven formula for effective, structured revision; key content coverage is combined with exam preparation activities and exam-style questions to create a revision guide that students can rely on to review, strengthen and test their knowledge. - Enables students to plan and manage a successful revision programme using the topic-by-topic planner - Consolidates knowledge with clear and focused content coverage, organised into easy-to-revise chunks - Encourages active revision by closely combining historical content with related activities - Helps students build, practise and enhance their exam skills as they progress through activities set at three different levels - Improves exam technique through exam-style questions with sample answers and commentary from expert authors and teachers - Boosts historical knowledge with a useful glossary and timeline

Crisis and Renewal in the History of European Political Thought, 2021-08-30 This volume advances a better, more historical and contextual, manner to consider not only the present, but also the future of ‘crisis’ and ‘renewal’ as key concepts of our political language as well as fundamental categories of interpretation.

Teaching Data Literacy in Social Studies Tamara L. Shreiner, 2024 We are surrounded by data and data visualizations in our everyday lives. To help ensure that students can critically evaluate data—and use it to promote social justice—this book outlines principles and practices for teaching data literacy as part of social studies education. The author shows how

social studies content and skills can enhance data literacy, and its importance in supporting students' historical thinking and civic engagement. Shreiner also provides a rationale for including data literacy in the social studies curriculum and highlights the special knowledge and skills social studies teachers offer in promoting a critical, humanistic form of data literacy. Recognizing that many social studies teachers feel poorly equipped to teach data literacy, this book offers practical advice, summaries of the benefits and challenges to students, guidance for incorporating data literacy across elementary and secondary grades, and strategies to help students analyze, use, and create data visualizations. "This important book provides many practical suggestions and powerful visual examples built on sound research that will support educators as they continue to find new ways to integrate data literacy in their history, civics, geography, economics, and other social science classrooms and beyond." —Christopher C. Martell, associate professor, University of Massachusetts Boston "Shreiner demonstrates how we use data visualizations to understand and construct arguments about the world around us and provides concrete ideas for how to approach teaching it in social studies classrooms. This book makes teaching data literacy feel relevant, urgent, and—most importantly—doable." —Sarah McGrew, assistant professor, University of Maryland

The Routledge International Handbook on Narrative and Life History Ivor Goodson, Ari Antikainen, Pat Sikes, Molly Andrews, 2016-10-04 In recent decades, there has been a substantial turn towards narrative and life history study. The embrace of narrative and life history work has accompanied the move to postmodernism and post-structuralism across a wide range of disciplines: sociological studies, gender studies, cultural studies, social history; literary theory; and, most recently, psychology. Written by leading international scholars from the main contributing perspectives and disciplines, *The Routledge International Handbook on Narrative and Life History* seeks to capture the range and scope as well as the considerable complexity of the field of narrative study and life history work by situating these fields of study within the historical and contemporary context. Topics covered include: • The historical emergences of life history and narrative study • Techniques for conducting life history and narrative study • Identity and politics • Generational history • Social and psycho-social approaches to narrative history With chapters from expert contributors, this volume will prove a comprehensive and authoritative resource to students, researchers and educators interested in narrative theory, analysis and interpretation.

The History of Voice Pedagogy Rockford Sansom, 2020-06-09 This ambitious publication draws from the knowledge and expertise of leading international figures in voice training in order to examine the history of the voice from an interdisciplinary perspective. The book explores the historical arc of various voice training disciplines and highlights significant people and events within the field. It is written by voice specialists from a variety of backgrounds, including singing, actor training, public speaking, and voice science. These contributors explore how voice pedagogy came to be, how it has organized itself as a profession, how it has dealt with challenges, and how it can develop still. Covering a variety of voice training disciplines, this book will be of interest to those studying voice and speech, as well as researchers from the

fields of rhetoric, music and performance. This book was originally published as a special issue of the Voice and Speech Review journal.

A Brief History of the English Reformation Derek Wilson, 2012-06-21 Religion, politics and fear: how England was transformed by the Tudors. The English Reformation was a unique turning point in English history. Derek Wilson retells the story of how the Tudor monarchs transformed English religion and why it still matters today. Recent scholarly research has undermined the traditional view of the Reformation as an event that occurred solely amongst the elite. Wilson now shows that, although the transformation was political and had a huge impact on English identity, on England's relationships with its European neighbours and on the foundations of its empire, it was essentially a revolution from the ground up. By 1600, in just eighty years, England had become a radically different nation in which family, work and politics, as well as religion, were dramatically altered. Praise for Derek Wilson: 'Stimulating and authoritative.' John Guy. 'Masterly. [Wilson] has a deep understanding of . . . characters, reaching out across the centuries.' Sunday Times.

Public History in Ireland Leonie Hannan, Olwen Purdue, 2024-06-28 Through a collection of essays that reflect the complexity of the island's historical past as it operates today, *Public History in Ireland* delivers a scholarly yet accessible introduction to contemporary topics and debates in Irish public history. Despite the reputation that Ireland, both north and south, has gained as a place of contestation, this is the first book-length study to tackle its diverse and often 'difficult' public histories. *Public History in Ireland* offers examples drawn not only from museums, heritage and collections, prime mediators of public historical interpretation, but also from the work of artists and academics. It considers the silences in Ireland's history-telling, including those of the recent conflict in Northern Ireland and of the traumatic public discoveries and re-evaluations of the island's institutions of social control. The book's key message is that history is active, making itself felt in ongoing debates about heritage, identity, nationhood, post-conflict society and reparative justice. It shows that Irish public history is freighted and often fraught with jeopardy, but as such it is rich with insight that has relevance far beyond this island's shores. This book is useful for students, scholars and practitioners working in the fields of public history and the history of Ireland.

[Focal Easy Guide to Final Cut Express](#) Rick Young, 2012-07-26 This highly illustrated, full color book tells you all you need to know to get up and running quickly using Apple's new digital video editing application - Final Cut Express. Rick Young shares his professional insight to ensure you get the most out of all the pro-level tools, offered at a very affordable price by Express. All the essential areas are covered: set-up; capture; editing; multi-channel sound mixing; effects creation and print to video, web or DVD, enhanced throughout by important workflow tips. This is an ideal first read, whatever you want to edit in Final Cut Express, at whatever level, as this powerful package is the answer to all your digital video needs, presenting a complete, easy to use digital laboratory for your movie creation. Rick Young (www.digitalproduction.net) is Director and

Founding Member of the UK Final Cut Pro User Group and an Apple Solutions Expert. A freelance television director and editor with many years of broadcast experience, including work for the BBC, Sky, ITN, CNBC and Reuters. Also a Final Cut Pro Consultant, Rick has attended numerous UK and US exhibitions, is a liaison to the US FCP user groups, and author of the best-selling, 'The Easy Guide to Final Cut Pro'.

Emerson's English Traits and the Natural History of Metaphor David LaRocca,2013-09-26 Metaphors are ubiquitous and yet-or, for that very reason-go largely unseen. We are all variously susceptible to a blindness or blurry vision of metaphors; yet even when they are seen clearly, we are left to situate the ambiguities, connotations and contradictions they regularly present-logically, aesthetically and morally. David LaRocca's book serves as a set of 'reminders' of certain features of the natural history of our language-especially the tropes that permeate and define it. As part of his investigation, LaRocca turns to Ralph Waldo Emerson's only book on a single topic, *English Traits* (1856), which teems with genealogical and generative metaphors-blood, birth, plants, parents, family, names and race. In the first book-length study of *English Traits* in over half a century, LaRocca considers the presence of metaphors in Emerson's fertile text-a unique work in his expansive corpus, and one that is regularly overlooked. As metaphors are encountered in Emerson's book, and drawn from a long history of usage in work by others, a reader may realize (or remember) what is inherent and encoded in our language, but rarely seen: how metaphors circulate in speech and through texts to become the lifeblood of thought.

Reading History in the Roman Empire Mario Baumann,Vasileios Liotsakis,2022-01-19 Although the relationship of Greco-Roman historians with their readerships has attracted much scholarly attention, classicists principally focus on individual historians, while there has been no collective work on the matter. The editors of this volume aspire to fill this gap and gather papers which offer an overall view of the Greco-Roman readership and of its interaction with ancient historians. The authors of this book endeavor to define the physiognomy of the audience of history in the Roman Era both by exploring the narrative arrangement of ancient historical prose and by using sources in which Greco-Roman intellectuals address the issue of the readership of history. Ancient historians shaped their accounts taking into consideration their readers' tastes, and this is evident on many different levels, such as the way a historian fashions his authorial image, addresses his readers, or uses certain compositional strategies to elicit the readers' affective and cognitive responses to his messages. The papers of this volume analyze these narrative aspects and contextualize them within their socio-political environment in order to reveal the ways ancient readerships interacted with and affected Greco-Roman historical prose.

The Oxford History of Life-Writing Patrick Hayes,2022-01-06 *The Oxford History of Life-Writing* consolidates recent academic research and debate to provide a multi-volume history of life-writing. Each volume provides a selective survey of the range of life-writing in a given period with particular focus on the most important or influential authors and works within the genre. VOLUME 1: *The Middle Ages* explores the richness and variety of life writing in the Middle Ages, ranging from

Anglo-Latin lives of missionaries, prelates, and princes to high medieval lives of scholars and visionaries to late medieval lives of authors and laypeople. VOLUME 2: Early modern explores life-writing in England between 1500 and 1700, and argues that this was a period which saw remarkable innovations in biography, autobiography, and diary-keeping that laid the foundations for our modern life-writing.

Multiple Lenses David Divine, 2009-03-26 Black Canadian Studies is the exploration of the range of histories, experiences, contributions, perceptions, feelings, convictions, triumphs, and obstacles awaiting to be overcome, of identified Black people of African descent resident in Canada. Black Canadian Studies revolves around the agency of Black people as the subject of investigation. Their stories, their interpretations, their pride, their independence, their self-determination, their challenges, their triumphs, their shortfalls and sense of freedom and justice, are at the forefront of investigation. *Multiple Lenses: Voices from the Diaspora Located in Canada* is an essential introduction to an understanding of the experience of Black people in Canada over a four hundred year period. Through the lenses of history, law, literature, film, music, Black community organizations, media, sports, Black spirituality, party politics, labour markets, education and lived experience, renowned commentators explore through Canadian eyes, how Black people in Canada have identified themselves, and been identified over this period. What factors influenced that process? Black people in Canada are not part of imagined communities but real people with visceral connections, flesh and blood, striving to build lives under often unimaginable hardships. This book is dedicated to such Black people and their allies who, together, have fashioned meaning and hope in an often hostile environment.

Making the Case Robert Leventhal, 2019-11-18 One hundred years before Freud's striking psychoanalytic case-histories, the narrative psychological case-history emerged in the second half of the eighteenth century in Germany as an epistemic genre (Gianna Pomata) that cut across the disciplines of medicine, philosophy, law, psychology, anthropology and literature. It differed significantly from its predecessors in theology, jurisprudence, and medicine. Rather than subsuming the individual under an established classification, moral precept, category, or type, the narrative psychological case-history endeavored to articulate the individual in its very individuality, thereby constructing a 'self' in its irreducible singularity. The presentation and analysis of several significant psychological case-histories, their theory and practice, as well as the controversies surrounding their utility, validity, and function for an envisioned 'science of the soul' constitutes the core of the book. Close and 'distant' (F. Moretti) readings of key texts and figures in the discussion regarding 'empirical psychology' (*psychologia empirica*), experiential psychology (*Erfahrungsseelenkunde*) and 'medical psychology' (*medizinische Psychologie*) such as Christian Wolff, J.C. Krüger, J.C. Bolton, Ernst Nicolai, J.A. Unzer, J.G. Sulzer, J.G. Herder, Friedrich Schiller, Jacob Friedrich Abel, Marcus Herz, Karl Philipp Moritz, J.C. Reil, Ernst Platner and Immanuel Kant provide the disciplinary, historical-scientific context within which this genre comes to the fore. As the first systematic argument concerning the early history of

this genre, my thesis is that the psychological case-history evolved as part of a pastoral apparatus of care, concern, guidance and direction for what it fashioned as the 'unique' individual, as the discursive medium in a process by which the soul became a 'self'. The narrative psychological case-history was in fact a meta-genre that transcended traditional boundaries of history and fiction, medicine and philosophy, psychology and anthropology, and sought, for the first time, to explicitly link the experience, history, memory, fantasy, previous trauma or suffering of a unique individual to illness, deviance, aberration and crime. In a word, it demonstrated, as Freud later said of his own case-histories in *Studies on Hysteria*, "the intimate relation between the history of suffering and the symptoms of illness" ("die innige Beziehung zwischen Leidensgeschichte und Krankheitssymptome"). This genre not only had a profound and far-reaching effect on the evolution of German and European literature - one thinks of the rich traditions of the *Novella* and the *Fallgeschichte* from Goethe, Büchner, R. L. Stevenson, Edgar Allen Poe and Chekhov to Kafka and beyond - but in shaping modern literature, the clinical sciences, and even popular culture. The book should therefore be of interest not merely to Germanists, modern European cultural historians, historians of science, and literary historians, but also those interested in the history of medicine and psychology, the origins of psychoanalysis, the history of anthropology, cultural studies, and, more generally, the history of ideas.

Business History John F. Wilson, Ian G. Jones, Steven Toms, Anna Tilba, Emily Buchnea, Nicholas Wong, 2022-01-20 The evolution of business history offers some radical ways forward for a discipline which is rich in potential. This shortform book offers an expert overview of how the field has relevance for contemporary business studies as well as the social sciences more broadly, as well as practitioners interested in historical perspectives. This book not only provides a comprehensive review of how the discipline of business history has evolved over the last century, but it also lays out an agenda for the next decade. Focusing specifically on the 'three pillars' of research, teaching and practical impact, the authors have outlined how while the first has flourished across many continents, the latter two are struggling to overcome significant challenges associated with how the discipline is perceived, especially in the social sciences. A solution is proposed that would involve academics working more closely with practitioners, thereby increasing the discipline's credibility across key stakeholders. The work here presented provides a concise and easily digestible overview of the topic which will be of interest to scholars, researchers and advanced students focusing on the evolution of business history and its impact on the way the world conducts business today.

History of Western Political Thought John Morrow, 2019-04-27 The third edition of this highly-regarded core textbook offers an accessible and impressively comprehensive account of Western Political Thought over the last two millennia. Structured in four main parts, the chapters are organised around a wide range of key themes, covering everything from Absolute Government and Revolutionary Political Thought to Politics and Freedom and Theories of Civil Disobedience. This new edition concludes with an Epilogue that considers the challenges posed to the history of Western political thought by the

perspectives of post-colonialism and post-modernism. The use of boxes throughout the book to explain key thinkers in more detail, as well as the author's ability to express complex ideas in clear and jargon-free language, makes this the perfect text for helping students to understand the key debates, issues and continuities in the long history of political ideas. For undergraduate and postgraduate students studying courses on the history of political thought and theory, this is an indispensable guide. New to this Edition: - Expanded material on the history of international relations thinking, race consciousness, diversity and gender politics - A completely new Epilogue which focuses on a discussion of post-colonialism and post-modernism in relation to political theory - Additional 'Thinker' boxes, alongside revised and updated suggestions for further reading

Authentic Assessment in Social Studies David Sherrin, 2020-02-19 This engaging book will show you how to move beyond tests and essay writing to implement authentic assessments in your middle or high school social studies classroom. Award-winning teacher David Sherrin explains the value of authentic assessments and offers practical ways to get started and dive deeper in your own practice.
