Fiscal Decentralization in the Philippines Gilberto M. Llanto, 2011

Decentralization Policies in Asian Development Shinichi Ichimura, 2009 This book explores the important topic of fiscal decentralization in Asian countries, and focuses on how government finance and administration are being reformed to bring budgetary decisions closer to voters. The focus on Asia is especially important because all countries in this region have been undergoing serious fiscal reforms in the past decade. They include one of the biggest decentralization reforms in Indonesia, significant reforms in democratic Philippines and Vietnam which are in transition, and Japan, whose fiscal reconstruction program is covered extensively. India and China, which are also covered, are very special cases because of their size and because their policies must fit decentralization into a significant economic growth scenario.

Fiscal fragmentation in decentralized countries Richard Miller Bird, 2014-05-14 Most countries, developed and developing, are fiscally decentralized with regional and local governments of varying importance. In many of these countries, some of these sub-national governments differ substantially from others in terms of wealth, ethnic, religious, or linguistic composition. This book considers how fiscal arrangements may strengthen or weaken national solidarity and the effectiveness with which public services are provided. In particular, the nation's ability to cope with changes created by decentralization is explored.

Decentralized Structures for Providing Roads Frannie Humplick, Azadeh Moini Araghi, 1996

Applying a Simple Measure of Good Governance to the Debate on Fiscal Decentralization Jeff Huther, Anwar Shah, 1998
March 1998 Applying an index for the quality of governance reveals a surprisingly strong positive correlation between fiscal decentralization and quality of governance. Debates about the appropriate role, policies, and institutions of the state are often hampered by the lack of a definition for good government. To provide a quantifiable measure of good government, Huther and Shah develop an index for the quality of governance for a sample of 80 countries. They apply the index to the debate on the appropriate level of fiscal decentralization. In measuring the quality of governance, the authors develop indices for the government's ability to: * Ensure political transparency and a voice for all citizens (the citizen participation index measures political freedom and political stability). * Provide effective public services efficiently (the government orientation

index measures judicial and bureaucratic efficiency and the absence of corruption). * Promote the health and well-being of its citizens (the social development index measures human development and equitable distribution of income). * Create a favorable climate for stable economic growth (the economic management index measures outward orientation, independence of the central bank, and an inverted debt-to-GDP ratio). In relating the index of governance quality to degree of fiscal decentralization for the 80 countries, Huther and Shah are not surprised to find a positive relationship between fiscal decentralization and quality of governance. But the strength of the correlation is surprising. This paper-a product of Country Evaluation and Regional Relations Division, Operations Evaluation Department-is part of a larger effort in the department to examine the role of the authorizing environment in public sector performance.

OECD Fiscal Federalism Studies Fiscal Decentralisation and Inclusive Growth in Asia OECD, Korea Institute of Public Finance, 2019-06-13 This report looks at the challenges faced by Asian countries in addressing inclusive growth and fiscal decentralisation. A series of studies examines how policies in the region have evolved in accordance with changes in demography and the economic environment, reflecting country characteristics, history and political economy forces.

Decentralization Policies in Asian Development ,

Devolution and Development Mwangi S. Kimenyi, 2018-01-18 Through a collection of unique case studies and theoretical analyses, this work examines the genesis and impact of decentralization reforms in developing and transition countries. In particular, the volume shows how decentralization affects governance and efficiency in the provision of public goods and under what conditions decentralization seems to deliver its theoretical benefits. Analyses in the book address current concerns about the interaction of decentralization with social and political structure, resource mobilization, public goods provision and corruption. This work will be invaluable to scholars of politics, development studies and regional studies.

Rethinking Decentralization in Developing Countries Jennie Ilene Litvack, Junaid Ahmad, Richard Miller Bird, 1998-01-01 In an effort to reduce poverty and improve nutrition, this Bank operation assisted the Indian program Operation Flood to develop the dairy industry in India. This study examines the policy changes instituted to support the aid flow to the dairy sector and discusses the lessons learned and benefits realized through improved dairy production. It also presents suggestions for improvement. This program differs from other Bank efforts in that it focuses on a single commodity to alleviate poverty and raise living standards.

Is Decentralization Good for Development? Jean-Paul Faguet, Caroline Pöschl, 2015 This book is a product of the Initiative for Policy Dialogue's Decentralization Task Force, and was first conceived at a conference held at Columbia University in New York in 2009--Page vii.

OECD Fiscal Federalism Studies Local Public Finance and Capacity Building in Asia Issues and Challenges

OECD, Korea Institute of Public Finance, 2020-12-22 Subnational governments' capacity to effectively fund and deliver public services are crucial for the realisation of the benefits of decentralisation. However, subnational capacities often suffer from significant weaknesses, ranging from inadequate assignments of own-revenues, through to flaws in tax administration, the design of intergovernmental transfers, spending assignments and various aspects of public financial management.

East Asia Decentralizes World Bank, 2005 This report states that the future of East Asian countries depends on the capacity and performance of local and provincial governments. Decentralization has unleashed local initiative and energy, with new ways to deliver services to people, with potential for continued improvement. The report, which focuses on six countries, notes the differences in the approach to decentralizing government in Cambodia, China, Indonesia, the Philippines, Thailand, and Vietnam

Fiscal Federalism 2022 Making Decentralisation Work OECD, 2021-12-20 Fiscal Federalism 2022 surveys recent trends and policies in intergovernmental fiscal relations and subnational government. Accessible and easy-to-read chapters provide insight into: good practices in fiscal federalism; the design of fiscal equalisation systems; measuring subnational tax and spending autonomy; promoting public sector performance across levels of government; digitalisation challenges and opportunities; the role of subnational accounting and insolvency frameworks; funding and financing of local government public investment; and early lessons from the COVID-19 crisis for intergovernmental fiscal relations.

Fiscal Decentralization and Local Finance in Developing Countries Roy Bahl, Richard M. Bird, 2018-03-30 This book draws on experiences in developing countries to bridge the gap between the conventional textbook treatment of fiscal decentralization and the actual practice of subnational government finance. The extensive literature about the theory and practice is surveyed and longstanding problems and new questions are addressed. It focuses on the key choices that must be made in decentralizing, on how economic and political factors shape the choices that countries make, and on how, by paying more attention to the need for a more comprehensive approach and the critical connections between different components of decentralization reform, everyone involved might get more for their money.
