

Rickshaw Beijing City People And Politics In The 1920s

Teresa Wright

Rickshaw Beijing David Strand, 1989 Based on the author's dissertation. Includes bibliographical references.

Rickshaw Beijing David Strand, 2023-04-28 In the 1920s, revolution, war, and imperialist aggression brought chaos to China. Many of the dramatic events associated with this upheaval took place in or near China's cities. Bound together by rail, telegraph, and a shared urban mentality, cities like Guangzhou, Shanghai, and Beijing formed an arena in which the great issues of the day--the quest for social and civil peace, the defense of popular and national sovereignty, and the search for a distinctively modern Chinese society--were debated and fought over. People were drawn into these conflicts because they knew that the passage of armies, the marching of protesters, the pontificating of intellectuals, and the opening and closing of factories could change their lives. David Strand offers a penetrating view of the old walled capital of Beijing during these years by examining how the residents coped with the changes wrought by itinerant soldiers and politicians and by the accelerating movement of ideas, capital, and technology. By looking at the political experiences of ordinary citizens, including rickshaw pullers, policemen, trade unionists, and Buddhist monks, Strand provides fascinating insights into how deeply these forces were felt. The resulting portrait of early twentieth-century Chinese urban society stresses the growing political sophistication of ordinary people educated by mass movements, group politics, and participation in a shared, urban culture that mixed opera and demonstrations, newspaper reading and teahouse socializing. Surprisingly, in the course of absorbing new ways of living, working, and doing politics, much of the old society was preserved--everything seemed to change and yet little of value was discarded. Through tumultuous times, Beijing rose from a base of local and popular politics to form a bridge linking a traditional world of guilds and gentry elites with the contemporary world of corporatism and cadres. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1989. The Human Tradition in Modern China Kenneth James Hammond, Kristin Stapleton, 2008 This lively and engaging text

founded by local teacher and journalist Yun Daiying (1895-1931). The book examines the ways by which radical politics developed in hinterland urban centers, from there into a nation wide movement, which ultimately provided the basis for the emergence of mass political parties, namely the Nationalist Party (Guomindang) and the Chinese Communist Party (CCP). The book's focus on organizations, everyday life, and social networks provides a novel interpretation of where mechanisms of historical change are located. The book also highlights the importance of print culture in the provinces. It demonstrates how provincial print-culture combined with small, local organizations to create a political movement. The vantage point of Wuhan demonstrates that May Fourth radicalism developed in a dialogue between the coastal metropolises of Beijing and Shanghai and hinterland urban centers. The book therefore charts the way in which seeds of political change grew from individuals, through local organizations into a nation-wide movement, and finally into mass-party politics and subsequently revolution. The book thus connects everyday experiences of activists with the cultural-political ferment which gave rise to both the Chinese Communist party and the Nationalist Party.

The Habitable City in China Toby Lincoln, Xu Tao, 2016-11-21 This book offers a new perspective on Chinese urban history by exploring cities as habitable spaces. China, the world's most populous nation, is now its newest urban society, and the pace of this unprecedented historical transformation has increased in recent decades. The contributors to this book conceptualise cities as first providing the necessities of life, and then becoming places in which the quality of life can be improved. They focus on how cities have been made secure during times of instability, how their inhabitants have consumed everything from the simplest of foods to the most expensive luxuries, and how they have been planned as ideal spaces. Drawing examples from across the country, this book offers comparisons between different cities, highlights continuities across time and space—and in doing so may provide solutions to some of the problems that continue to affect Chinese cities today.

A Bitter Revolution Rana Mitter, 2004-07 China is now poised to take a key role on the world stage, but in the early twentieth century the situation could not have been more different. Rana Mitter goes back to this pivotal moment in Chinese history to uncover the origins of the painful transition from a premodern past into a modern world. Mitter takes us through the resulting social turmoil and political promise, the devastating war against Japan in the 1940s, Communism and the Cultural Revolution of the 1960s, and the new era of hope in the 1980s ended by the Tian'anmen uprising. He reveals the impetus behind the dramatic changes in Chinese culture and politics as being China's New Culture - a strain of thought

which celebrated youth, individualism, and the heady mixture of strange and seductive new cultures from places as far apart as America, India, and Japan. - ;China is now poised to take a key role on the world stage, but in the early twentieth century the situation could not have been more different. Rana Mitter goes back to this pivotal moment in Chinese history to uncover the origins of the painful transition from a premodern past into a modern world. By the 1920s the seemingly civilized world shaped over the last two thousand years by the legacy of the great philosopher Confucius was falling apart in the face of western imperialism and internal warfare. Chinese cities still bore the imprints of its ancient past with narrow, lanes and temples to long-worshipped gods, but these were starting to change with the influx of foreign traders, teachers, and missionaries, all eager to shape China's ancient past into a modern present. Mitter takes us through the resulting social turmoil and political promise, the devastating war against Japan in the 1940s, Communism and the Cultural Revolution of the 1960s, and the new era of hope in the 1980s ended by the Tian'anmen uprising. He reveals the impetus behind the dramatic changes in Chinese culture and politics as being China's New Culture - a strain of thought which celebrated youth, individualism, and the heady mixture of strange and seductive new cultures from places as far apart as America, India, and Japan. - ;an impressive and inventively researched book - Jonathan Fenby, FT Magazine

Non-Governmental Organizations in Contemporary China Qiusha Ma,2005-11-16 Based on documentary materials including interviews with key players in China, this book charts the development of non-governmental and non-profit organizations in China from the late 1970s to the present day. It recounts how in the aftermath of the 1978 reforms that created a market economy and diversified interests and social life, new institutions and organizations outside of the state system increased dramatically in number, size and influence. These organizations, which barely existed before the reforms began in the late 1970s, carry out many social, economic and cultural tasks neglected by the government. Qiusha Ma examines two key questions crucial to understanding the development of NGOs in China: First, is it possible under China's one-party state for non-governmental organizations to thrive and play important economic, social and political functions? And secondly, are NGOs facilitating the formation of a civil society in China?

The Modern Chinese State David Shambaugh,2000-05-08 Publisher Description

Biomedicine as a Contested Site Poonam Bala,2008-10-16 While literature on medicine and colonialism has increased rapidly in the past nearly two decades, this volume presents yet another way of looking at ideas of medicine, health, and disease. It portrays the role played by power in various ways in which biomedicine became a site of contested ventures_a site which saw an interplay of medicine, ruling ideologies, and resistance by indigenous populations. Ideas of disease and health range from control of infectious diseases and epidemics, medications and indigenous therapeutics, clinical medicine and surgery, to reproductive health, with the added dimension of medical pluralism and elites as enabling these interactions and processes. This book will be of interest to undergraduate and graduate students of history, sociology, anthropology,

medicine, and public health. With essays on different regions around the world, it will serve as a guide to scholars and students in colonial studies, history of medicine, and world history.

The Creation of Modern China, 1894-2008 Iain Robertson Scott, 2016-06-30 No country has undergone a greater period of sustained and convulsive change than China in the twentieth century. This is its story, tracing the emergence of a modern China.

The Politics of Historical Production in Late Qing and Republican China Tze-ki Hon, Robert Culp, 2007-08-13 By examining various forms of historical production happening outside the mainstream of academic history in early 20th century China, this book shows how historical writings were central to the Chinese debate on the nation, elite authority, and active citizenry.

China in Revolution Joseph W. Esherick, 2022-08-04 This book includes eleven seminal essays by one of America's leading authorities on modern Chinese history with an illuminating preface by Prof. Elizabeth Perry of Harvard University. It covers a range of topics from the impact of imperialism to the 1989 protests that led to the Tiananmen massacre. Chapters include an explanation of how China expanded its borders far beyond the Han Chinese heartland and maintained those borders in the transition from empire to nation; how Sun Yat-sen unexpectedly emerged as the Father of the Country; and how a series of unexpected and contingent events brought the empire down in 1911. Despite conventional representations of a static and unified China, this book proves Chinese society to be diverse and constantly changing—especially after the Communist revolution which was a transformative event in modern Chinese history. Esherick denounces traditional imagery of cultural uniformity, which derives from excessive attention to the unitary state, through chapters that explore the impact of the 1937-45 War of Resistance against Japan, the dramatic wartime transformation of Chinese society in both Communist and Nationalist (Guomindang) areas, and the nature of the new Communist regime in Northwest China. In his book, Esherick examines both the Marxist-Leninist theory behind Mao's notion of the "restoration of capitalism," against which he waged the Cultural Revolution of the 1960s, and the political theater of the 1989 protest movement. Throughout the book the contingency of history, the need for careful empirical research, and the important yet limited role of history is highlighted as the key to understanding the present or predicting the future of China.

Regulating Prostitution in China Elizabeth J. Remick, 2014-03-26 In the early decades of the twentieth century, prostitution was one of only a few fates available to women and girls besides wife, servant, or factory worker. At the turn of the century, cities across China began to register, tax, and monitor prostitutes, taking different forms in different cities. Intervention by way of prostitution regulation connected the local state, politics, and gender relations in important new ways. The decisions that local governments made about how to deal with gender, and specifically the thorny issue of prostitution, had concrete and measurable effects on the structures and capacities of the state. This book examines how the ways in which local government chose to shape the institution of prostitution ended up transforming local states themselves. It begins by

looking at the origins of prostitution regulation in Europe and how it spread from there to China via Tokyo. Elizabeth Remick then drills down into the different regulatory approaches of Guangzhou (revenue-intensive), Kunming (coercion-intensive), and Hangzhou (light regulation). In all three cases, there were distinct consequences and implications for statebuilding, some of which made governments bigger and wealthier, some of which weakened and undermined development. This study makes a strong case for why gender needs to be written into the story of statebuilding in China, even though women, generally barred from political life at that time in China, were not visible political actors.

State And Society In China Arthur Rosenbaum, Chae-Jin Lee, 2019-09-03 This book portrays the subtle, irreversible changes in China and revealing the leadership's major failure to create a set of rational, workable political institutions. It considers the changing role of social classes and their relationship to the state.

Behind the Gate Fabio Lanza, 2010 Through an investigation of 20th-century Chinese student protest, Lanza considers the marriage of the cultural and the political, the intellectual and the quotidian, that occurred during the May Fourth movement, along with its rearticulation in subsequent protest.

Popular Protest And Political Culture In Modern China Jeffrey N Wasserstrom, 2018-02-07 This innovative and widely praised volume uses the dramatic occupation of Tiananmen Square as the foundation for rethinking the cultural dimensions of Chinese politics. Now in a revised and expanded second edition, the book includes enhanced coverage of key issues, such as the political dimensions of popular culture (addressed in a new chapter on Chinese rock-and-roll by Andrew Jones) and the struggle for control of public discourse in the post-1989 era (discussed in a new chapter by Tony Saich). Two especially valuable additions to the second edition are art historian Tsao Tsing-yuan's eyewitness account of the making of the Goddess of Democracy, and an exposition of Chinese understandings of the term 'revolution' contributed by Liu Xiaobo, one of China's most controversial dissident intellectuals. The volume also includes an analysis (by noted social theorist and historical sociologist Craig C. Calhoun) of the similarities and differences between the 'new' social movements of recent decades and the 'old' social movements of earlier eras. TEXT CONCLUSION: To facilitate classroom use, the volume has been reorganized into groups of interrelated essays. The editors introduce each section and offer a list of suggested readings that complement the material in that section.
